KORE
KENTUCKY OVERDOSE RESPONSE EFFORT

Hospital Emergency Department (ED) Bridge Clinics and Consult Services

Hospital emergency department (ED) bridge clinics and consult services provide immediate care for people experiencing substance use–related crises.

Patients receive rapid assessment, treatment, medications, peer support, and connections to ongoing treatment and recovery services in their communities.

Provide rapid treatment to individuals experiencing a substance–related crisis.

Facilitate timely initiation of medications for opioid use disorder (MOUD).

Connect with peer support specialists who provide compassionate care through recovery coaching.

Provide linkage following discharge to ongoing community–based treatment and recovery services.

KYSOS Statewide Opioid Stewardship
kentuckysos.com

The Kentucky Hospital Association (KHA) has expanded the reach of the Kentucky Statewide Opioid Stewardship (KYSOS) ED Bridge Navigator Program statewide by supporting the integration of peer support specialists into emergency departments and leveraging ED-based MOUD champions.
