KORE KENTUCKY OVERDOSE RESPONSE EFFORT

Quick Response Teams

Quick Response Teams are mobile outreach efforts that support Kentucky's most vulnerable populations within 24 to 72 hours after an overdose or substance-related crisis.

REACH
Assertive outreach to overdose survivors, families, and others affected by substance use. QRTs accept self-referrals and referrals from community partners.

RESPOND
Engagement within 24–72 hours following a crisis by multidisciplinary teams that may include peer support specialists, first responders, emergency personnel, and behavioral health professionals.

SUPPORT
Person-centered, compassionate engagement that emphasizes dignity, trust, and meeting people where they are.

CONNECT
Warm connections to prevention, treatment, recovery, and other community resources tailored to each individual's needs.
