

**ADDITIONAL REQUIREMENT FOR INITIAL LICENSE,
CHANGE OF LOCATION, AND INCREASE IN CAPACITY.**

An application for an initial license, change of location for an existing facility, or increase in capacity must include documentation of approval from the State Fire Marshal's Office. Routine requests for relicensure do not require this documentation. If you have a question as to whether or not Fire Marshal approval is required for submission of the licensure application, please call (502) 564-7963.

You may request approval from the Fire Marshal's Office by contacting:
