Indiana	Submitted 9/27/13. Approved 11/4/13. The Indiana Nursing Home Advanced Education Project intends to develop and implement a program to improve the education of health care professional working in long term care facilities in the areas of wound care, infection prevention, Alzheimer's and dementia care, and process improvement. ISDH feels that individuals with experience in these areas are very limited or not available in LTC facilities at this time. Therefore, this project will provide opportunities for LTC facilities to have individuals with expertise in these area which will enhance quality of care.	Project Budget: \$400,000	3/1/14-2/28/16	ISDH, ISDH contractors	The project will offer education programs in wound care, infection prevention, Alzheimer's and dementia care, and process improvement (QAPI). The training programs will be set at the same standards as other nationally recognized programs in those area. ISDH plans to contract a project coordinator who will make all arrangements for the training and coordination f the program. Participants would include LTC staff from participating nursing homes. ISDH will assessment outcome through tracking deficiencies cited in those areas and how that correlates to the number of individuals in the facilities with experience or certifications in those areas. ISDH expect that by this project, LTC facilities will have individuals in their facilities who will have the expertise in these areas which will enhance the quality of care provided to residents.	Terry Whitson , Assistant Commissioner, ISDH
