## REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation #: 907 KAR 1:715

Cabinet for Health and Family Services

Department for Medicaid Services

Agency Contact: Linda Proctor (502) 564-6890, Stephanie Mack (502) 564-6890 or  
Stuart Owen (502) 564-4321

- (1) Provide a brief summary of:
  - (a) What this administrative regulation does: This administrative regulation establishes Medicaid school-based health service policies.
  - (b) The necessity of this administrative regulation: This administrative regulation is necessary to establish school-based health service policies in concert with 20 USC 33.
  - (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing school-based health service policies.
  - (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing school-based health service policies.
  
- (2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
  - (a) How the amendment will change this existing administrative regulation: The amendment changes the speech and language provider requirements. Currently, to be eligible to provide Medicaid speech and language services, a speech language pathologist has to have a current license from the Kentucky Board of Speech-Language Pathology and Audiology, a master's level certification issued (after January 1, 2001) by the Kentucky Education Professional Standards Board, or a certificate of clinical competence issued by the American Speech-Language Hearing Association; or be working under the supervision of someone who meets the aforementioned requirements. With the amendment, a speech-language pathologist will have to have a current license from the Kentucky Board of Speech-Language Pathology and Audiology and a certificate of clinical competence issued by the American Speech-Language Hearing Association. Additionally, the Department for Medicaid Services (DMS) is changing the term mental health services to behavioral health to ensure consistency with the corresponding state plan amendment approved by the Centers for Medicare and Medicaid Services (CMS) and is removing hourly salary, hourly fringe benefit costs and hourly contract amounts from the list of information required to be submitted by school districts as that information will be captured on the cost report (now required by CMS) to be submitted by each school district.
  - (b) The necessity of the amendment to this administrative regulation: The amendment is necessary to comply with a Centers for Medicare and Medicaid

Services (CMS) mandate.

- (c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by complying with a CMS mandate regarding speech-language pathologists' requirements; thus, preventing Kentucky's DMS program from losing federal funding for services provided by speech language pathologists.
  - (d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by complying with a CMS mandate regarding speech-language pathologists' requirements; thus, preventing Kentucky's DMS program from losing federal funding for services provided by speech language pathologists.
- (3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: School districts which provide Medicaid-covered school-based health services will be affected by the amendment to this administrative regulation. There are approximately 143 school districts in Kentucky who provide Medicaid-covered school based health services.
- (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
- (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Any speech-language pathologist who provides Medicaid school-based services currently but does not meet the amended speech-language pathologists' requirements will have to meet the requirements if they wish to be able to provide Medicaid-covered, school-based health services.
  - (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Any speech-language pathologist who does not currently meet the CMS-mandated requirements, will experience the costs of obtaining the revised credentials if they wish to be able to provide Medicaid-covered, school-based health services.
  - (c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Speech-language pathologists who meet the CMS-mandated requirements will be able to be reimbursed for Medicaid school-based health services and their employers, school districts, likewise, will be able to be reimbursed by the Medicaid program.
- (5) Provide an estimate of how much it will cost to implement this administrative regulation:
- (a) Initially: The Department for Medicaid Services (DMS) expects to experience no cost as a result of this amendment.
  - (b) On a continuing basis: DMS expects to experience no cost as a result of this amendment.

- (6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.
- (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding is necessary to implement the amendment to the administrative regulation.
- (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor directly or indirectly increases any fees.
- (9) Tiering: Is tiering applied? (Explain why tiering was or was not used). Tiering was not applied in this administrative regulation because it is applicable equally to all individuals or entities regulated by it.

## FEDERAL MANDATE ANALYSIS COMPARISON

Regulation Number: 907 KAR 1:715

Agency Contact: Linda Proctor (502) 564-6890, Stephanie Mack (502) 564-6890 or Stuart Owen (502) 564-4321

1. Federal statute or regulation constituting the federal mandate. 42 CFR 440.110 and a state plan amendment required and subsequently approved by the Centers for Medicare and Medicaid Services (CMS). The state plan amendment was submitted to CMS in response to a CMS audit which requested changes to the Department for Medicaid Services school-based health services program.
2. State compliance standards. KRS 205.520(3) states, "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."
3. Minimum or uniform standards contained in the federal mandate. To be Medicaid reimbursable, Kentucky speech-language pathology services must be provided by a speech-language pathologist who has a current license from the Kentucky Board of Speech-Language Pathology and Audiology and a current certificate of clinical competence issued by the American Speech-Language-Hearing Association.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The amendment will not impose stricter than federal requirements.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The amendment will not impose stricter than federal requirements.

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)?

Yes X No \_\_\_\_\_

If yes, complete 2-4.

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services and Kentucky school districts who provide Medicaid school-based health services will be affected by the amendment.
3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. 42 CFR 440.110.
4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
- (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? DMS anticipates no increase in revenue as a result of this administrative regulation. A school district whose speech-language pathologists who fail to obtain the CMS-mandated credentials for providing Medicaid school-based health services could lose revenues as those pathologists would be ineligible to provide Medicaid school-based health services as a result of the amendment. Thus, the school district would be unable to be reimbursed for the services that otherwise could have been provided by those speech-language pathologists.
- (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? DMS anticipates no increase in revenue as a result of this administrative regulation. DMS anticipates no increase in revenue as a result of this administrative regulation: A school district whose speech-language pathologists who fail to obtain the CMS-mandated credentials for providing Medicaid school-based health services could lose revenues as those pathologists would be ineligible to provide Medicaid school-based health services as a result of the amendment. Thus, the school district would be unable to be reimbursed for the services that otherwise could have been provided by those speech-language pathologists.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) expects to experience no cost as a result of this amendment.

(d) How much will it cost to administer this program for subsequent years? DMS expects to experience no cost as a result of this amendment.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.
