F 241	<p>Continued From page 1</p> <p>treated in a manner and in an environment that maintains and enhances each resident's dignity and respect in full recognition of his or her individuality. Treating residents with dignity and respect maintains and enhances each resident's self worth and improves his or her psychosocial well-being and quality of life. Assist residents' in daily care in a dignified manner (i.e. making sure residents are not exposed).</p> <p>Review of the facility's undated bathing policy titled, "Bathing a Resident", revealed multiple steps including Step #11: Assist the resident into the bath chair if needed. Make sure the wheels on the bath chair are locked and/or the chair is steady to prevent the resident from falling. Step #12: Cover the resident from the neck down with the bath blanket. Step #14: Transport the resident to the bath area. Put "Bath in Progress" sign on the outside of the door.</p> <p>1. Record review revealed the facility admitted Resident #13 on 11/12/09 with diagnoses which included Osteoarthritis and Osteoporosis. Review of the annual Minimum Data Set (MDS) assessment, dated 04/21/15, revealed the facility assess Resident 13's cognition as severely impaired with a Brief Interview for Mental Status (BIMS) score of zero (0), which indicated the resident was not interviewable.</p> <p>Observation of Resident #13, on 07/08/15 at 11:02 AM and 12:00 PM, revealed the resident had a black colored substance on his/her lips and surrounding his/her mouth.</p> <p>Interview with Resident #13's son, who was at bedside, on 07/08/15 at 2:05 PM, revealed he came to visit Resident #13 and when he entered</p>	F 241	<p>All educations were completed by 8/9/15. This requirement was also added to our general orientation for new hires.</p> <p>4. Administration will interview 20 total residents per week to determine any concerns related to dignity and respect weekly for 4 weeks then 20 per month for an additional 2 months. Administration will observe 5 opportunities of an associate providing dignity and respect for non-interviewable residents (BIMS less than 8) on each hallway weekly for 4 weeks then 5 per month for an additional 2 months. The results of the interviews and observations will be brought to the QA committee (Executive Director, Asst. ED, DON, Director of Rehab, HK Supervisor, Director of HR, Business Office Manager, Maintenance Supervisor, Director of Medical Records, Social Services and ADON) to determine the need for further monitoring.</p> <p>5. Resident #13's son stated it was disappointing to find his parent like this and that staff had told him it was probably medication.</p> <p>Interview with Licensed Practical Nurse (LPN) #2, on 07/08/15 at 2:56 PM, revealed LPN #2 expected staff to perform hygiene care when a resident was soiled in any way and she would have expected Resident #13's face to have been cleaned during staff interactions with resident or during care being provided. LPN #2 stated she administered Resident 13's medication and Resident #13 received Ferrous Sulfate daily and had an order to have medications crushed. She stated this particular medication could have left the black residue appearance on his/her lips and mouth area due to resident's medications being crushed.</p> <p>2. Record review revealed the facility re-admitted Resident #15 on 12/23/11 with diagnoses which included Paralysis Agitans, Esophageal Reflux, Persistent Mental Disorder, Depressive Disorder, and Anxiety Disorder. Review of the quarterly MDS assessment, dated 05/27/15, revealed the facility assessed Resident #15's cognition as severely impaired with a BIMS score of zero (0), which indicated the resident was not interviewable.</p> <p>Observation of Resident #15, on 07/08/15 at 9:00 AM, revealed Certified Nurse Aide (CNA) #1 was standing over Resident #15 while feeding him/her the breakfast meal. The resident was sitting in a wheelchair at the time.</p> <p>Interview with CNA #1, on 07/08/15 at 2:55 PM,</p>	F 241

F 279	<p>Continued From page 11</p> <p>Observation and interview with Resident #5, on 07/08/15 at 11:12 AM, revealed Resident #5 was asking his/her family member to get the urinal from the bathroom for his/her use. He/she stated the urinal should be kept at the bedside when in room for use.</p> <p>Interview with Resident #5's family member, on 07/08/15 at 11:10 AM, revealed the resident's urinal should be made available to Resident #5 by being kept at the bedside and not placed in the bathroom. He stated it needed to be accessible to the resident and it would do more harm for it to be in the bathroom because the resident could fall at night trying to go to the bathroom. He revealed staff had told him it had to be in the bathroom and in a bag, and he felt that was not convenient and safe for the resident.</p> <p>Interview on 07/09/15 at 2:15 PM with Licensed Practical Nurse (LPN) #7 and LPN #9 revealed they would want to be able to look at a care plan and know about a resident if they were not familiar with the resident.</p> <p>Interview on 07/10/15 at 8:40 AM and at 9:10 AM with LPN #4 revealed the urinal should be on the care plan because staff that was not providing care to Resident #5 all the time would not know he used a urinal and the resident does not get up to go to the bathroom all the time. LPN #4 further revealed that the urinal would help promote independence for the resident.</p> <p>Interview on 07/10/15 at 8:42 AM with MDS Nurse #1 revealed the urinal should be on the care plan and care guide for dignity reasons, and care plans were made for general used items at</p>	F 279

F 281 SS=D	483.20(k)(3)(i) SERVICES PROVIDED MEET PROFESSIONAL STANDARDS  The services provided or arranged by the facility must meet professional standards of quality.  This REQUIREMENT is not met as evidenced by: Based on interview, record review, review of the facility's policy and procedure and review of the Kentucky Board of Nursing (KBN) Advisory Opinion Statement (AOS) #14, it was determined the facility failed to ensure services provided met professional standards of quality for one (1) of thirty (30) sampled residents (Resident #3). Staff failed to follow a physician's order related to not administering a Tuberculin (TB) skin test due to an allergy.  The findings include:  1. Review of the KBN AOS #14 Patient Care Orders, last revised 10/2010, revealed licensed nurses were responsible for administering medication and treatment as prescribed by the physician or advanced practice registered nurse.  Review of the facility policy titled, "Allergies", not dated, revealed the purpose of the policy was to prevent anaphylaxis and to prevent all allergic reactions. Procedural steps included interviewing	F 281	1. The physician clarified that resident # 3 did not have an allergy to Tubercullin testing by 7/17/15. It was clarified on the careplan by the nurse on 7/27/15. 2. All other residents were audited by the Nursing Administration to ensure all allergies were listed on the physician's order summary, the MAR , TAR and careplan by 7/19/15 and any issues were clarified at that time. 3. Licensed Nurses were inserviced by the Executive Director to ensure services provided meet professional standards to include clarifying all allergies that relate to the residents on 7/24/15. Anyone who missed this meeting was inserviced by the Staff Development Coordinator or appropriate dept head. All educations were competed by 8/9/15. This was also added to our general orientation for Licensed Nurses for new hires.

F 281	Continued From page 13 the resident or family to determine allergies. Allergies should be recorded on resident care plan and on any other form(s) as appropriate.  Record review revealed the facility admitted Resident #3 on 10/26/12 with diagnoses which included Chronic Obstructive Pulmonary Disease (COPD), Diastolic Heart Failure, Atrial Fibrillation and Malignant Neoplasm of the Prostate. Review of an Allergy List, dated 04/17/13, from another facility revealed the resident was allergic to tuberculin.  Review of physician order sheet, dated July 2015, revealed an order with the original date of 04/01/14 stating "Do not administer PPD/2nd step PPD due to history of +PPD"; and no further orders related to TB; however, review of the TB Screening and Immunization Record, revealed staff administered a TB skin test on 02/11/13, 02/23/13, 1/14/14 and 01/19/15.  Interview with the Registered Nurse Unit Manager, on 07/09/15 at 2:20 PM, revealed with any new admission, she would expect the staff to perform a thorough check of the chart documentation to ensure the allergy information was correctly listed. She stated the resident could have had serious adverse reactions with the administration of a medication the resident was allergic to. The staff should have identified the allergy if they had performed the five (5) medication rights.	F 281	4. Administrative Staff will audit new admissions weekly for four weeks then monthly times 2 additional months to determine allergies have been clarified on the physician's order sheets, the allergy sticker in the chart, MARS, TARS and careplans. 5. F 514	<p>Continued From page 44</p> <p>Allergies should be recorded on resident care plan and on any other form(s) as appropriate.</p> <p>Record review revealed the facility admitted Resident #3 on 10/26/12 with diagnoses which included Chronic Obstructive Pulmonary Disease (COPD), Diastolic Heart Failure, Atrial Fibrillation and Malignant Neoplasm of the Prostate.</p> <p>Review of a Allergy List from an acute care facility, dated 04/17/13, and review of the resident's face sheet with an admission date of 10/26/12 revealed the resident was allergic to the tuberculin (TB) skin test. However, review of readmission orders, 04/17/13, revealed Resident #3 had no known allergies (NKA).</p> <p>Review of Physician Orders for July 2015 revealed allergies to be listed as lisinopril and TB skin test. Page eight (8) of the same orders has an order, initiated on 01/14/14, for "Do not administer PPD/2nd step PPD due to history of positive PPD". Review of July 2015 Medication Administration Record (MAR) and the Treatment Administration Record (TAR) revealed the resident has allergies to lisinopril and TB skin test. Further review revealed a Care Directive guide, dated 07/07/15, which stated Resident #3 was allergic to TB skin test.</p> <p>Interview with the Registered Nurse Unit Manager, on 07/09/15 at 2:20 PM, revealed with any new admission, she would expect the staff to perform a thorough check of the chart documentation to ensure the allergy information was correctly listed.</p> <p>Interview with the Director of Nursing (DON), on 07/10/15 at 9:25 AM, revealed she expected that</p>	F 514
