With a DNR order in place, Guardianship assumes that the Individual under Guardianship will continue to receive treatment as usual and necessary, but that any treatment they require stop short of cardiopulmonary resuscitation. If a change in the level of care to be provided is recommended, the physician will need to complete the Physicians recommendation for End-of-Life Care once the DNR Code Status is approved. Please note this is for DNR only; requests for DNI will require a change in the level of care/ EOL request.

Please note that we must thoroughly review all requests to ensure we are making the best decision on behalf of our Individuals under Guardianship. These reviews and approvals occur during regular business hours. The After-Hours Guardianship Hotline cannot accept, review, or approve any requests.

In accordance with Kentucky Revised Statute (KRS 311.621 TO 311.643 and Regulation (910 KAR 2:040) those who meet criteria for a DNR order is anyone who:
• Has a terminal condition- defined as a condition caused by injury, disease, or illness which in your estimation is incurable and irreversible and will result in death within a relatively short time, and where the application of life prolonging treatment would serve only to artificially prolong the dying process.
• Is permanently unconscious- defined as a condition characterized by an absence of cerebral cortical function.
• Has a comorbid condition, in which two (2) or more coexisting medical conditions compromise the Individual under Guardianships chance of recovery or of benefiting from active treatment.
