

# RECOVERY SUPPORT SERVICES

Kentucky Access to Recovery (KATR) provides support to help people with **opioid or stimulant use disorder** build recovery capital.

## TYPES OF SERVICES

Recovery Housing Assistance

Transportation Assistance

Educational Supports

Employment Supports

Assistance Meeting Basic needs

Medical and Dental Services

## SUPPORTING RECOVERY

The goal of KATR is to build recovery capital by removing barriers to the services and supports needed to achieve and sustain long-term remission and recovery. To achieve this goal, KATR works with clients in coordination with their treatment or recovery provider to build an individualized plan.

## HOW KATR WORKS

1

Provider refers potentially eligible clients to KATR

2

KATR assesses recovery support service needs

3

Approved services paid + clients linked to supports

## WHO QUALIFIES?

KATR serves **income-eligible** individuals with a diagnosed **opioid use disorder** or **stimulant use disorder** residing in identified service counties.

KATR serves residents in six Kentucky regions. Assessment and service referrals can be completed virtually.
