

Danny Cornett named Superhero – August 2022 Vision

SuperHero Danny Cornett aided clients in hours after EKY floods

Congratulations to DCBS Superhero, Danny Cornett, a Social Service Clinician I from the Adult Protective Services team in Letcher County, Eastern Mountain Service Region.

Danny lives in Eastern Kentucky and took immediate action to help his neighbors and customers after the July 28 flooding. After being evacuated from his apartment in Whitesburg and assisting with the evacuation of Letcher Manor Nursing Home after flooding in the area, Danny spent most of that weekend checking on his clients who live in the affected flooded areas of Breathitt, Perry, Knott and Letcher counties. He did all he could to ensure they had their needs met. He truly cares about his clients.

Showing he also values teamwork, Danny is quick to help other regions of the state as well, such as the Jefferson Service Region APS. Danny recently completed numerous APS referrals in the Louisville area as part of the weekend blitz effort by Eastern Mountain Service Region while still carrying a full caseload for the EMSR Adult Protective Services Team.

In addition, Danny is resourceful and terrific at solving problems. Danny is a wealth of information with over 30 years of experience with the cabinet in various positions.

Danny is a wonderful example of the ideal dedication and initiative of an Adult Protective Services social worker. Thank you and congratulations, Danny!
