VOLUME II

MS 7030, Required Verification at Recertification, is revised to state that the client’s statement is acceptable verification for lack of income unless questionable at recertification. This policy was effective 2/11; however, this manual section was inadvertently omitted.

Subject: Consumer Directed Option (CDO)

Volume IVA

MS 2800, Consumer Directed Option (CDO), is revised to completely reorganize the manual section. It is further revised to:

- Clarify that CDO services CANNOT be entered on KAMES as a type or a level of care. “AAA” has to be entered as a provider on the LTC screen (even though they are not an actual provider) and KAMES requires workers to enter a provider type. If the provider # begins with 43, KAMES will require workers to enter the type as adult day. Workers are to follow what is on the PRO Cert.

- Explain that pay received by a CDO employee is countable when that employee or a member of their family applies for MA benefits. CDO income is considered the same way as if the wages were from a regular employer. This is true for CDO employees who are relatives of the member for whom they provide services, as well as for non-related CDO employees;

- CDO services are available through the Area Agency on Aging (AAA) but they do not provide services to clients. They serve as a support broker and help recruit, hire, and manage employees. They also negotiate rates;

- Step out the process on how CDO services can be combined with traditional services such as HCBS, Adult Day, SCL or ABI; and

- Explain that HCBS and Adult Day can co-exist but a recipient cannot have two HCBS providers or two Adult Day providers. ABI must have two providers, one as the case manager and one as the provider. All other waivers can only have one provider, even if they receive CDO services. If they receive CDO services, discharge from traditional services and enter the “AAA” provider.

The Centers for Medicare and Medicaid Services (CMS) had issued a clarification which stated that in order for a transfer to be allowable to a blind or disabled child, the transfer must be placed in a Special Needs Trust, which required a review by the Department for Medicaid Services (DMS). This is incorrect and it was a misinterpretation of the state statute. Per the Cabinet’s legal department and the state statute there are two kinds of transfers to a recipient’s blind or disabled child that do not incur penalties: (1) assets transferred to the child; and (2) assets transferred to a trust for the sole benefit of the child.

- Remove the statement that “the uncompensated equity value of the transferred resource is added to other assets”. This is no longer an exception to transferred resources. The uncompensated transferred resources are no longer added to the current resources prior to determining eligibility.

Subject: KWP Full-Family Sanction

Volume III

The Table of Contents is revised to delete MS 2004, 24-Month Work Policy, and to add MS 2007, KWP Full-Family Sanction.

MS 2004, 24-Month Work Policy is deleted. The pertinent information from MS 2004 is incorporated into MS 2007.

MS 2007, KWP Full-Family Sanction, is created to explain the procedures for K-TAP “C” cases that automatically discontinue due to the KWP Full-Family Sanction policy. Full-Family Sanction policy and procedures do not apply to “W” cases. If a “W” case does not comply with the Kentucky Works Program (KWP) the case is discontinued.

KAMES begins the automatic discontinuance of “C” cases subject to a KWP Full-Family Sanction in 9/08 effective for 10/08. An automatic discontinuance of a “C” case due to the Full-Family Sanction does not pend for supervisory approval. The Full-Family Sanction policy applies to K-TAP cases with a work eligible individual who fails to participate in approved KWP activities and:

- Is identified as having received TANF benefits for 6 cumulative months since 8/1/05;
- Is currently serving a 416 disqualification;
- Has served a 416 disqualification in Kentucky for 3 cumulative months since 8/1/05.

MS 2007 incorporates information from OM Update No. 05-27, Reduction of Timeframes for KWP Full-Family Sanctions, dated 8/1/05.

It is no longer a requirement to make two attempts to reach the individual prior to a Full-Family Sanction. When the worker receives the spot check for the Full-Family Sanction, the worker sends form PAFS-628, Exchange of Information, to the local Protection and Permanency (P&P) office for evaluation of Safety Net services for the family. Safety Net services are only available to families with eligible children in the home.

Cases discontinued for the KWP Full-Family Sanction are not approved for K-TAP benefits before 2 full weeks of participation is completed. At reapplication, if the
individual successfully participates for 2 weeks or is willing to participate but an activity is not available in the 2-week period, the worker can approve the case.

The clarification dated 6/3/03 titled, 24/6 Policy, is obsolete as the information is no longer appropriate.

The clarification dated 10/26/05 titled, FAD Eligibility, is obsolete as the information is incorporated into the manual section. When a case discontinues for the KWP Full-Family Sanction, the family is not eligible for FAD.

The clarification dated 3/21/07 titled, Full-Family Sanction, is obsolete as the information is no longer appropriate.

Volume X

The Table of Contents is revised to delete OM Update No. 05-27, MS 99711, Reduction of Timeframes for KWP Full-Family Sanctions, dated 8/1/05 as this update is incorporated into the appropriate manual sections and is now obsolete.

The cross-reference to Vol. III, MS 2004 on OM Update No. 03-16, MS 99621, MA KWP Disqualification, dated 4/1/03 and the Errata to OM Update No. 03-16, MS 99621E, dated 4/1/03 is removed as MS 2004 is obsolete and the information from the Update is incorporated into Vol. III, MS 2007.

Subject: Applying and Curing the KWP Penalty

This OMTL revises the penalty section of Volume IIIA. Effective 7/7/08 the effective date of the KWP penalty is changed to comply with federal requirements.

Volume IIIA

The Table of Contents is revised to change the titles for MS 4750 to Applying the KWP Penalty and MS 4770 to Curing the KWP Sanction.

MS 4750, Applying the KWP Penalty, is revised for clarity and to incorporate OM Update No. 07-13, MS 99762 and Errata dated 5/1/07 and OM Update No. 05-27, MS 99711 dated 8/1/05. The requirement that two contacts be attempted with the family prior to imposing the full-family sanction is not incorporated as policy is revised to no longer require contacts.

MS 4750 is also revised to provide instruction on entering the date of the KWP prorata penalty. The penalty is applied using the effective date of the reduction of the K-TAP benefits as the date the worker enters in the “Effective Date” field on STEP. This section is revised to remove the statement that supportive services are available to individuals with a KWP penalty once a cure date is entered. In addition, the statement regarding supportive services and a child support penalty is removed. Although these statements remain true, the instruction will be moved to the appropriate manual sections.

The worker cannot enter a future date in the “Effective Date” field on STEP prior to 7/7/08.

MS 4750 is further revised to remove the link to the clarification. The clarification to Debbie Fitzgerrel, dated 6/3/03 and titled “OMPU 03-16 Question” is obsolete as the information is in the manual material.

MS 4770, Curing the KWP Sanction, is revised to incorporate OM Update No. 05-27, MS 99711 dated 8/1/05 and to include the new procedure for curing a KWP penalty. In addition, MS 4770 is revised to remove the policy that the KWP penalty is cured when the K-TAP case discontinues. The KWP penalty remains on STEP until the participant complies with KWP activities for 2 weeks or meets good cause or exemption criteria. If the individual successfully participates for 2 weeks or is willing to participate but an activity is not available in the 2-week period, consider the penalty cured as of the first day of the month following the month the individual agreed to participate.
MS 4770 is also revised to provide instruction to delete the sanction on STEP if a KWP penalty is cured before the effective month of the KWP penalty. If the KWP penalty is deleted, manually remove the month of KWP penalty from “YY” tracking screen.

MS 4770 is further revised to remove the clarification links. The first was directed to Debbie Fitzgerrel, dated 6/3/03, titled “OMPU 03-16 Question”. The second was directed to Jo Davis, dated 5/14/03, titled “Curing Sanction”. This information is incorporated in the manual material.

Subject: Administrative Hearings Involving Medical Review Team (MRT) Determinations

Volume I

MS 0570 is revised to include procedures for a hearing in which new medical information is presented at the hearing. When new medical information is presented at the hearing, the hearing officer may issue an interim order remanding the case to MRT. The interim order will list the new medical information to be considered.

MRT has 30 calendar days to make a redetermination upon receipt of the interim order. If MRT needs more time, a 30-day extension may be requested. If MRT does not make a determination within 30 days or 60 days, if an extension is granted, a recommended order can be drafted without MRT’s redetermination. If the Agency is upheld, the client may file an appeal.

When a hearing involves an MRT determination, it is imperative that the worker bring form PA-601T, Referral for Determination of Incapacity/Disability, and the packet of information MRT used to make the determination to the hearing. Also, bring several forms MRT-15, Authorization to Disclose Information to the Cabinet for Families and Children, for the client to sign if the case is to be remanded to MRT. This will facilitate the redetermination process.

Please review MS 0570 for detailed procedures.

Subject: Volume I Revisions

This transmittal letter contains a major rewrite of the Claims chapter. The rewrite includes the change from the Kentucky Claims Automation (KCA) and the Kentucky Claims Ledger (KCL) systems to the Kentucky Claims Debt Management (KCD) system, and incorporation of OM updates and Family Support memorandums (FSM). In addition, the material is reorganized for a more effective delivery of policy and procedures.

Considering the extensive changes to the material, it is recommended that the entire Claims Chapter be reviewed, not just this cover letter.

Tom Emberton, Jr., Commissioner
COMMONWEALTH OF KENTUCKY
Cabinet for Health and Family Services
Department for Community Based Services
Frankfort, Kentucky

Operation Manual
Transmittal Letter No. 266
August 1, 2005

To: All Field Staff

Subject: Various Revisions - Volumes I, II, IIA, and X

Volume I

The Table of Contents is revised to change the title of MS 0108 to Civil Rights Disabled Individuals, and to add MS 0112, Limited English Proficiency (LEP) Requirements, and MS 0115, Providing LEP Services.

In addition, the Table of Contents is revised to remove manual sections 1567, 1578, and 1579 as they are already obsolete.

MS 0108 is revised to delete information on providing interpreter services to non-English speaking individuals. This information is now in MS 0112 and MS 0115.

MS 0112 is created to include policy concerning the requirements for providing services to LEP individuals. The LEP requirements are mandated by the Civil Rights Act of 1964 and Executive Order 13166 of August 2000 and affect all federally funded programs and services. This includes the programs administered by our Cabinet - K-TAP, Medical Assistance, Food Stamp and any other program funded by the Temporary Assistance for Needy Families (TANF) block grant. These requirements not only apply to all Cabinet staff but to any contracted vendors used by the Cabinet to provide services.

The Cabinet must ensure that all LEP individuals have meaningful access to all programs. Providing meaningful access includes:

- Providing translated copies of essential forms and informational materials;
- Identifying LEP individuals and their language needs;
- Providing language assistance, interpreter services, at no cost to the individual; and
- Informing LEP individuals that interpreter services are available at no cost to the individual and how to access these services.

MS 0115 is created to include the procedures used to meet LEP requirements and provide LEP services. The information includes what LEP services are available, how to access them, and how to pay for them.
**MS 0506** is revised to reflect the appropriate individuals to receive the electronic form PAFS-343.1. **MS 0506** is further revised to reflect the appropriate individuals to receive a request for “exception” to a QC error.

**MS 1587** is revised to provide procedures on how to handle claims that have been established in Kentucky and the household has moved out-of-state. If a food stamp (FS) household has moved out-of-state and the Department is contacted by the new state regarding a claim, send all relevant claim information, including any current or past disqualifications to that state and remove the claim from the claims system. The other state will establish the claim.

**MS 1660** is revised to remove the portion that references sending a food stamp recipient form PAFS-2, Application Letter or Notice of Expiration, to meet with the Office of Attorney General in regard to trafficking activities. **MS 1660** is also revised to remove the statement "if the recipient does not keep the appointment, discontinue the case for non-cooperation". We have received a Food and Nutrition Services (FNS) clarification which states that form PAFS-2 may not be issued as an attempt to require an individual to meet with or supply information to a fraud investigator. Threatening to terminate the individual/household for failure to respond to a PAFS-2, when the response involves communicating with a fraud investigator, circumvents the right to remain silent. The food stamp case cannot be discontinued. It is further revised to correct the name of the Claims Section to Claims Management Section.

**MS 1915** is revised to:

- Change the title "Procedures for Safeguarding IRS" to "Procedures for Safeguarding IRS Information - Batch Match";
- Add Procedures for Safeguarding BENDEX information. BENDEX screens are NOT to be printed or placed in the case records. Document in the case comments that the income amount was verified by inquiry on mo/day/year.
- Give instructions on purging all BENDEX files, IEVS, and any other information obtained from the IRS. In addition, purge any KASES screens that contain IRS data that was printed before 8/26/04.
- Revise the Cabinet name.
- Add instructions to lock terminals when not in use and sign off terminals when leaving for the day.

**Volume II**

**MS 2915** is revised to state that the SAVE process must be completed within 30 days of the initial application. This revision was made as a result of an FNS clarification.

**MS 2915** is also revised to state that SAVE is accessed via a web-site versus via phone.
**MS 3175** is revised to remove the reference to interest income as this is now excluded.

**MS 5210** is revised to delete the cross-reference to OM Update No. 04-08, MS 99660, 2/1/04, as this is already included in the policy. **MS 5210** is also revised to:

- Delete the cross-reference to OM Update No. 05-01, MS 99685, 1/1/05 and OM Update No. 05-15, MS 99699, 4/1/05, as these changes are incorporated into this manual section.

- Incorporate OM Update No. 05-01, MS 99685, 1/1/05, which states attendant care and child care payments are no longer considered excluded vendor payment if the provider is a member in the FS household and must now be considered earned income.

- Incorporate OM Policy Update No. 05-15, MS 99699, 4/1/05, which states that any income received from an AMERICORP program is excluded. Some of the programs are VISTA, Foster Grandparents, and RSVP. The recipient of this income is no longer required to have received food stamp benefits before excluding this income.

- Clarify that income received from the YouthBuild program is excluded if paid to a household member age 18 and under. It is further revised to state YouthBuild and OJT income for members age 19-24 is countable.

- State that attendant care and child care payments provided to another FS household member from his/her own pocket and not from monies from an outside source are considered excluded income to the FS member receiving the money.

- Update the amount of payments given to KWP participants. There are 3 levels of payment for monthly expenses based on the scheduled participation:

  1. Catchall - 1 to 3 days per month = $9
  2. Part-time - 4 to 16 days per month = $35
  3. Full-time - 17 or more days per month = $60

- Add that payments made to a child of a Vietnam Veteran who suffers from disabilities resulting from spina bifida are excluded.

- Add a provision to exclude additional pay received by military personnel, under the Consolidated Appropriations Act of 2005, while deployed to a combat zone when determining eligibility for food stamp benefits.

- Add that interest and dividends are excluded.

**MS 5210** is further revised to clarify that any recouped portion of SSI income is excluded.
MS 5220 is revised as the result of an FNS clarification to clarify that income received from OJT earnings from the YouthBuild program, if paid to a member age 19-24, is countable income. MS 5220 is also revised to:

- Incorporate OM Update No. 05-01, MS 99685, 1/1/05, which states that Attendant Care and Child Care payments provided by an outside source are to be treated as earned income if the person providing the care is a FS household member.

- Add back instructions on consideration of capital gains income derived from self-employment as this was erroneously removed with OMTL #253 effective 8/1/03.

- To remove a reference to the treatment of sick pay as it was listed twice in this manual section.

- Add at the request of field staff that cafeteria plans that involve money owed to the recipient are countable income.

- Remove the reference to a portion of reimbursements being considered as Countable Income. This was changed with OMTL #250, effective 4/1/03, due to changes in the Farm Bill. This section was erroneously left in.

- Reclarify that VISTA income is considered countable, unless the member was receiving food stamps or public assistance at the time the member joined the program. This revision is due to a recent FNS clarification that reversed their previous clarification that all of this income was excluded due to being under the AMERICORP program. As a result of FNS’s reclarification, OM Upd. No. 05-15, MS 99699, 04/01/05 is rescinded.

- Rearrange material concerning Title I and Title II programs for better access.

- Remove the references to dividends as they are now excluded.

MS 5490 is revised due to an FNS clarification to state that residents in public housing only have to anticipate to incur excess charges for heating and cooling in order to be eligible for the SUA; they do not have to INCUR a cost first.

MS 6400 is revised as a result of a FNS clarification to state that during 30/60-day application processing, if during the extended 30-day period a household provides the necessary verification to process the case, the household can be certified for benefits even if it is not the information that was originally requested. (An example has been added for this.)

MS 6400, 6500 and 6740 are revised to incorporate OM Upd. No. 05-13, MS 99697A (Addendum), 3/7/05, which states that Food Stamp applications, recertifications and member-adds that pend for mandatory supervisory approval can no longer be signed off on "over-the-shoulder".

The Act expanded the eligible group to include not only the victim of human trafficking but also eligible relatives. Subject: Medicare Prescription Drug Discount Card and Subsidy

As a result of the Medicare Prescription Drug Improvement and Modernization Act of 2003 (MMA), Medicare beneficiaries may receive a prescription drug discount card. The discount card was created to provide the recipient with negotiated prescription drug prices that should be lower than the regular prices. In addition, some Medicare recipients may receive through the drug discount card a $600 credit ("transitional assistance"). Only Medicare recipients whose incomes are not more than 135 percent of the poverty line and who do not have certain other drug coverage will receive the $600 credit. Currently, the credit is scheduled to be issued for June 2004 through December 2004 and calendar year (CY) 2005.

The Food and Nutrition Service (FNS) states that the availability of negotiated prices or credit received through the prescription card will not be treated as income or a resource for the Food Stamp Program (FSP). In addition, to prevent households from experiencing any reduction in their food stamp benefits as a result of receiving the discount drug card, the discounts and credit a household receives through the drug discount card will be treated as standard medical expenses when determining the household's medical expense deduction. This medical deduction is only authorized for the Medicare Prescription Drug Discount Card in food stamp cases. The Medicare Prescription Drug Discount Card policy does not apply to any other type of prescription drug or medical discount programs.

Medicare recipients that have been approved for the discount card will have a card with a seal on it. The seal will read "Medicare Approved". If the card does not have the Medicare-approved seal, the card is not Medicare approved and not eligible for a medical deduction. Medicare recipients are responsible for notifying the Department about the eligibility for the discount card. However, workers should ask food stamp recipients about eligibility for the discount card and credit at applications and recertifications, as this is not a mandatory reportable change for Simplified Reporting (SR) households and non-SR households.

Volume II

**MS 5420** and **MS 5430** are revised to provide procedures for the treatment of the Medicare Prescription Drug Discount Card. Eligible Medicare recipients with incomes at or below 135 percent of the income poverty line are eligible for a $600 credit for the remainder of CY 2004 and throughout CY 2005. Kentucky has elected to average each year's credit over a 12-month period for eligible households. As a result, $50 is allowed as a medical deduction in the food stamp case for individuals who qualify for the $600. The estimated value of the prescription drug discount card is $276 per year, or $23 per month. Budget $23 a month in medical expenses for
each cardholder that resides in the food stamp household. A cardholder's monthly medical expenses equal the cardholder's actual monthly out-of-pocket expense plus $23. Cardholders are allowed to claim the actual out-of-pocket prescription expense incurred prior to using the discount card if those expenses exceed the total of their current out-of-pocket plus the amount of all allowances the household receives.

Subject: Food Stamp, K-TAP and MA Child Support Income Policy and Procedures

An errata to OMTL-259 is issued to clarify income budgeting instructions for child support income.

OMTL-259 erroneously provided income budgeting instructions that would result in an incorrect calculation of child support income. Example No. 2 provided in Volume II, MS 5650, Budgeting Income; Example No. 2 in Volume III, MS 2610C; and instructions in Volume IV, MS 3530 and MS 4374 are corrected. For your convenience, we are reissuing the corrected examples and instructions to these manual sections.

Volume II

MS 5650 is revised to correct the example for child support entry of 3 children in a household receiving child support income from the same non-custodial parent.

Volume III

MS 2610 is revised to state that if the household is under the gross income limits, the child support income is removed before the calculation of the application and ongoing benefits. Also, Example No. 2 in item C is corrected to reflect the rounding performed by KAMES. When the child support is divided between two or more children, it is necessary to round the average monthly amount (to the nearest dollar) of child support before determining each child’s share.

Volume IV

MS 3530 and MS 4374 are revised to remove language which inferred that the $50 disregard is subtracted from each monthly amount of child support received. This was inconsistent with subsequent instruction in the manual sections to subtract the disregard from the average of the 3 prior months’ child support payments. The correct procedure is to average the 3 prior months’ child support, then subtract the disregard.

Subject: Food Stamp, K-TAP and MA Child Support Income Policy and Procedures

As a result of recommendations made through the CQI process, a work group representing the Department for Community Based Services (DCBS) central and local office staff, the Department for Medicaid Services (DMS), Division of Professional Development and Training, Quality Control and Management Evaluation met to revise the child support (CS) income policy for uniformity in the Food Stamp Program (FSP), Kentucky Transitional Assistance Program (K-TAP) and Medical Assistance (MA) Program. In addition, this meeting was initiated by the Division of Family Support (DFS) Director, to address case processing errors and eliminate the complexity of computing CS income caused by different policies and procedures for the three programs.

Based on Federal and state regulations and policy, the workgroup came to the following consensus for considering CS income in all benefit programs administered by DCBS.

A. Rounding

1. Manually add the total amount of CS income for the 3 prior months if representative of ongoing income, then average the total and enter the actual dollars and cents monthly amount on the system. **Do not round the weekly or monthly total.**
2. The only exception to this rule is when averaging CS for children that receive CS from the same non-custodial parent (NCP). For these types of cases, divide the CS among the number of children for whom the support is intended and round in a manner that equals the total monthly amount of support due. See entering CS on the system.

B. Entering CS on KAMES

1. Manually add all 3 months, divide by 3 to get an average and enter on KAMES as a monthly amount using the CA calculation code. **Do not round the weekly or monthly total.**
2. Enter the CS under each child for whom the income is paid by the NCP. If there is more than one child for the same NCP, determine the average monthly amount and divide it among the number of children for whom the support is intended. Round the amounts in a manner that equals the total monthly amount of support due.
Example: If a household receives $100 CS for 3 children. The average equals $33.33 per child. Enter $33 for 2 children and $34 for 1 child, which totals $100 monthly.

C. The reference to form CSR-41, Notice of Payment of Child Support Collection to Recipient, is deleted as this form is obsolete. The information is now contained on the DCSE Escrow Review screen (HRKIMB34) which is accessed from the DCSR. When an escrow situation occurs, the DCSR is posted with the message “DCSE Escrow Review”.

D. KASES Payment Date

All assistance programs will use the disbursement date (check date) for CS income when received through KASES.

E. Documentation

1. Document the case record in enough detail to permit a reviewer to determine the accuracy of the processed case. Documentation includes but is not limited to the following: verification source such as KASES screens; support is paid to the Division of Child Support (DCS); written statement from absent parent; check stubs; and if paid by wage assignment.

2. Document the method used to determine child support entry such as: use of written statement; manual calculations of the last 3 months of income; using 4 1/3 or 2 1/6 when the prior 3 months are not representative; and if a calculator with tape was used, include the tape.

Volume II

MS 5650 is revised to incorporate the new procedural changes to budgeting child support income in a food stamp case. The revisions outline CS policy and procedures for rounding, KAMES entry, selecting the correct KASES payment date and documentation. With the incorporation of KAMES procedures, Vol. VI, MS 3240 is obsolete with this transmittal letter. MS 5650 is also revised to remove reference to Notice of Payment of Child Support Collection to K-TAP Recipient. This form is no longer generated. A "DCSE Escrow Review" screen is sent to the worker’s DCSR.

Volume III

MS 2500 is revised to state the rounding procedures do not apply to child support income. Also, a reference to MS 2610 is added. In addition, KASES is added as a verification source.

MS 2610 is revised to provide specific instructions for the entry of the child support income on KAMES. The child support income is entered for each child for whom the child support is paid. If the K-TAP gross income test is met, the child support income, which is forwarded to the Division of Child Support (DCS), is removed from the case before ending session. Only escrow child support payments and child support payments that are not forwarded to DCS remain on KAMES to be considered in the benefit calculation. The prior 3 months, if representative, is used to determine the amount of child support received monthly.

Volume IV
MS 3530 is revised to instruct workers to enter child support income as “other” unearned income on KAMES. MS 3530 is further revised to add KASES as a source of verification of child support. This incorporates Volume VI, MS 3240.

It is further revised to instruct workers to calculate an average monthly child support amount before applying the $50 disregard. The average monthly amount is calculated by dividing the total of child support received in the prior 3 months by 3. The average monthly amount minus the $50 disregard is divided by the number of children receiving the support. Additionally, examples are provided for situations where there is more than one payor of child support.

The term absent parent (AP) has been replaced by Non-Custodial Parent (NCP).

MS 4374 is revised to instruct workers to enter child support income as “other” unearned income on KAMES. This incorporates Volume VI, MS 3240.

It is further revised to instruct workers to calculate an average monthly child support amount before applying the $50 disregard. The average monthly amount is calculated by dividing the total of child support received in the prior 3 months by 3. The average monthly amount minus the $50 disregard is divided by the number of children receiving the support. Additionally, examples are provided for situations where there is more than one payor of child support.

The term absent parent (AP) has been replaced by Non-Custodial Parent (NCP).

Volume IVA

MS 2230 is revised to instruct workers to enter child support income as “other” unearned income on KAMES. This incorporates Volume VI, MS 3240. KASES is added as a verification source.

MS 2230 is further revised to replace the term absent parent (AP) with the term Non-Custodial Parent (NCP).

The Table of Contents is revised to add MS 5470 as it was inadvertently omitted. It is also revised to correct the titles of the following manual sections: MS 3000, MS 5480, MS 6410 and MS 6707.

MS 3810 is revised to further clarify policy for appointing representatives for individuals who do not have the capacity to care for themselves. This manual section is revised to state if applicants do not have the mental capacity to care for themselves, then they do not have the ability to designate an authorized representative. In these situations, the legal guardian can apply without a signed statement from the applicant as long as proof is provided. The order of guardianship from the court will serve as verification of representation.

MS 3820 is revised to clarify that the reference to Department employees is referring to the Division of Family Support (DFS) employees. DFS employees cannot be representatives if they are involved in the certification and/or issuance processes unless there is specific written approval from the Service Region Administrator (SRA) or designee and only if a determination has been made that no one else is available to serve.

MS 5820 is revised to state that for child support deductions, DO NOT round cents before adding or multiplying hourly or daily earnings. However, before adding or multiplying weekly, bi-weekly, semi-monthly, quarterly or annual earnings, round all cents. It is further revised to advise workers to follow rounding procedures in MS 5650 for rounding child support income.

Volume IIA  
The Table of Contents is revised to correct the titles of the following manual sections: MS 8110, MS 8150, MS 8750 and MS 8800.

MS 3050 is revised to state the following counties are currently ABAWD counties: Anderson, Boone, Bracken, Bullitt, Campbell, Daviess, Fayette, Franklin, Gallatin, Garrard, Grant, Henry, Jefferson, Jessamine, Kenton, Mercer, Oldham, Pendleton, Pike, Scott, Shelby, Spencer and Woodford.
**MS 3250** is revised to state, "to determine the number of hours the recipient is required to work, see MS 8200".

**MS 8125** is revised to state, "see MS 8200 for the FS allotment and hours chart".

Subject: Various Handbook Revisions

Volume I

**MS 0506** is revised to incorporate OM Update No. 03-40, MS 99650, 11/1/03.

Volume II

**MS 2330** is revised to change the wording in “Exception to Student Status” from “disabled” to “unfit” to match federal regulations and to reduce staff confusion regarding the definition of disabled. A federal clarification states that federal regulations do not require FS applicants/recipients meet the definition of disabled as defined in **MS 2000** for student status and work registration. Individuals only have to be physically or mentally unfit for employment. Verification procedures are unchanged.

**MS 5210** is revised to incorporate OM Update No. 03-11, MS 99614, 3/1/03 and OM Update No. 04-04, MS 99655, 1/1/04, regarding excluded income.

**MS 5470** is revised as the result of a Food and Nutrition Services (FNS) clarification to state that regardless of whether or not a household pays their rent in advance, it is still an allowable shelter deduction.

**MS 5520** is revised to remove the reference to including excluded members when determining the SUA amount; this no longer applies as we now only have a standard SUA amount.

**MS 5650** is revised to add procedures for processing educational income for SR households.

**MS 6410** is revised to change the title of the section to Verification Time Standards at Application and Recertifications. It is further revised to include procedures for verification time standards for recertifications.

**MS 8110** is revised to change information about when the EBT aging notice is sent and when an EBT aging spot check is displayed. Recipients will no longer receive a 2-month and 6-month notice warning them that their EBT account will be expunged. Advise recipients that benefits unused for 9 months will be expunged. The “aging” spot checks will only be created when benefits are expunged for active cases.
MS 8140 is revised to change procedures for processing food stamp cases when the recipient moves out of Kentucky. Effective 2/1/04, Kentucky will no longer convert food stamp benefits to paper coupons when a recipient leaves the state due to the following reasons:

1. Nationwide EBT implementation is expected by 10/1/04;
2. Interoperability; and
3. The difficulty recipients and retailers have with trying to redeem paper coupons.

The Kentucky EBT card can be used in all states except Ohio and Wyoming. Each local office will be provided with a list of retailers in Ohio and Wyoming which will accept the Kentucky EBT card.

MS 8220 is revised to incorporate OM Update No. 03-27, MS 99636, 7/1/03. This policy update revised procedures for replacing food stamp benefits for the amount of food purchased that is subsequently destroyed in a household misfortune or disaster such as a fire, flood, or power outage. The new criteria is based on a FNS clarification which states that generally, power must be off for 72 hours before a replacement for loss of food can be authorized. Procedures have been added for processing food stamp cases when power has been off for less than 72 hours or 72 hours.

Volume IIA

MS 1650 is revised to change the wording in “Exemptions” from “disabled” to “unfit” to match federal regulations and to reduce staff confusion regarding the definition of disabled. A federal clarification states that federal regulations do not require food stamp applicants/recipients meet the definition of disabled as defined in MS 2000 for student status and work registration. Individuals only have to be physically or mentally unfit for employment. Verification procedures are unchanged.

Volume VI

MS 5740 is revised to incorporate the obsoleted OM Update No. 03-06, MS 99609, 1/1/03, concerning refusal to provide sufficient information in regard to voluntary quit or reductions in work hours.

MS 5740 is further revised to change “Refusal to Cooperate with DES” to “Refusal to cooperate with ETP requirements.”

MS 5742 is revised to remove the reference to K-TAP as a work program.

Volume X

OM Update No. 02-23, MS 99594, 8/1/02, is obsolete as it was previously incorporated.

OM Update No. 02-28, MS 99599, 12/1/02, is obsoleted per this OMTL as it was previously incorporated.

OM Update No. 03-09, MS 99612, 4/1/03, is obsolete as it was previously incorporated.
OM Update No. 03-21, MS 99628, 6/1/03, is obsolete as it was previously incorporated.

Volume II

The Table of Contents is revised to change the title of MS 6705 to "Simplified Reporting Households".

MS 5320 is revised to clarify policy on business expenses for self-employed households.

MS 5460 is revised to change the maximum shelter deduction to $378 and to remove the pen and ink reference to OM Upd. No. 03-38.

MS 5470 is revised to incorporate OM Policy Update No. 03-21 regarding shelter deductions. Because we now mandate the use of the SUA/BUA for eligible households, self-employed households no longer have the option to use actual and prorate. Therefore, they only have the option to either choose the SUA/BUA and receive no utility deduction from their self-employment or receive no deduction for utilities at all, and use the utility deduction for self-employment only. MS 5470 is further revised to remove the reference of OM Policy Update No. 03-21 and formatting changes.

MS 5480 and MS 5485 are revised to correct the headers. MS 5485 is also revised to remove the reference to the recipient "selecting" the SUA/BUA as "selecting" is no longer an option.

MS 5490, MS 5500 and MS 5520 are revised to incorporate OM Policy Update No. 03-21. These manual sections are revised to state that households entitled to either the Standard Utility Allowance (SUA) or the Basic Utility Allowance (BUA), must use the appropriate standard for their households; they no longer have the option of choosing between a standard or actual utility expense.

MS 5490 is also revised to correct the headers.

MS 5495 and MS 5498 are revised to incorporate OM Policy Update No. 03-21 to revise the SUA and BUA amounts.

MS 5800 is revised to change the maximum shelter deduction to $378.

MS 6430 is revised to remove the references to recipients "electing" to use the standard or actual expenses as this is no longer an option.

Subject: Various Handbook Revisions

Volume II

**MS 2900** is revised to state that effective 10/1/03, eligibility for Food Stamp benefits is restored to all legal immigrant children under age 18, regardless of date of entry into United States (current law limits eligibility to children who were in the country on 8/22/96). Sponsor income will not be countable to the child. These changes are a result of the Farm Security and Rural Investment Act of 2002 (Farm Bill).

Use the following procedures to process affected cases:

All children that qualify under the new policy and have an application pending on September 30, 2003, will receive a full month’s benefits for October, if eligible. The qualified alien children will be shown as ineligible for the month of application, September 2003, but eligible effective October 2003, when the application is processed.

FS applications for households in which some of the members are eligible on October 1, 2003, and other members are eligible prior to this date must have FS applications processed according to regular timeframes.

Eligibility and benefit amount for households with ineligible members will be determined by using the same application for September and October. Eligibility and benefit amount for September is determined by using the policy as it exists in September 2003. Apply the new policy to appropriate household members to determine FS eligibility and benefit amount for October 2003.

Applications

**Note:** Use the following workarounds only for FS applications that are dated September 2003 and recertifications effective October 2003 to insure all affected individuals receive benefits beginning October 1, 2003.

Example 1: If a household of 5 applies in September 2003 and 3 of the members are eligible and 2 become eligible in October 2003, the application is processed for the eligible members. Enter the “IA” alien code for any ineligible alien children in the case. The day after approving the case, add the ineligible children and enter “EA” alien code. If the system uploads a “Y” for the question, “Is this case eligible
for a supplemental?”, change this to “N”. If any benefits are owed to the household, manually issue the supplemental.

Example 2: If a household applies for FS benefits in September 2003 and all the members are ineligible for the application month (September), but are eligible for the ongoing month (October), enter “EA” for alien “verify source”; answer “Y” to the question, “DID HE/SHE RECEIVE FS IN ANOTHER STATE?” with a “Y” for September and “N” for October.

Recertifications

If a FS household recertifies in September 2003 effective for October, and a member(s) becomes eligible in October, answer “EA” for those alien children whose eligibility starts October 2003 and ensure that the “supplemental” question is answered “N”.

**MS 3000** is revised to include noncitizens under the age of 18 as individual who are exempt from deeming provisions, if otherwise eligible for FS.

**MS 3060** is revised to state that sponsor income is not countable to aliens under the age of 18.

**MS 8110** is revised to state that form PAFS-2, Application Letter or Notice of Expiration, should not be sent to households that meet Simplified Reporting (SR) requirements.

The new requirement states that we must notify the household of the missed appointment and their responsibility to reschedule. Effective March 11, 2002, based on system-entered appointment information, the KAMES system automatically generates a Notice of Missed Interview (NOMI) advising the household of its responsibility to reschedule an appointment as follows:

A. Applications entered on or after 3/11/02 that have an appointment scheduled on the RFI disposition screen when the application is first entered, will have a system-generated NOMI sent if the appointment is missed. To ensure that a NOMI is generated for applications, the worker must take these steps:

1. The worker must enter the appointment on the RFI screen while in Option 1 from the Application Menu, when first entering the application. If the worker does not complete these steps, then they will have to manually send any subsequent notices.

2. As long as the application is not updated on the appointment date, the notice is system-generated. If the worker updates the application on the appointment date for any reason, but the appointment is not kept, the system acts as if the recipient kept the appointment and deletes the trigger to send the notice. **If the appointment is not kept, do not update the application on that day.**

3. If the recipient reschedules on or before the original appointment date, the worker can update the pending application and enter the new appointment on KAMES. The system will send the NOMI if the new appointment is missed.

B. For recertifications, the worker must enter an “RC” appointment for the FS case on KAMES.

1. If the recertification is not entered by the scheduled recertification appointment date, the system will send a NOMI.

2. If the worker reschedules the appointment on KAMES using type “HR” on or before the appointment date, KAMES will send a NOMI if the new appointment is missed.

MS 6330 is revised to incorporate OM Policy Update No. 02-03 to state that the waiver of the face-to-face interview may not affect the length of the certification period. This section is further revised to incorporate OM Policy Update No. 01-08.

Subject: Simplified Reporting Requirements

Effective February 1, 2002, as a result of changes in Federal regulations and an approved waiver, the reporting requirements changed for households with earnings. Between certification periods, households with earnings need only report when their income exceeds 130% of the federal poverty level for their household size. The positive impact of Simplified Reporting is that it will reduce error rates, ease the burden for working families, provide longer certification periods, and allow a reduction in case workload.

FS households without countable earnings will continue to report changes using the standard food stamp reporting criteria. For claims determination, households with new employment must still report within 10 days of becoming aware of obtaining a new job. Once subject to SR requirements, FS households only have to report changes if their gross monthly income is above the 130% poverty level for their household. FS households subject to SR do not convert (using 4 and 1/3 or 2 and 1/6) their income to arrive at a monthly total when comparing their gross monthly income to the 130% poverty level, the household only totals the monthly amount. Do not convert SR households earned income when comparing to the poverty level, only when determining the FS household’s on-going eligibility. Quality Control and Management Evaluation reviews will be conducted based on the new policy.

Please note that reporting requirements for K-TAP and Medical Assistance have not changed; SR only applies to food stamp cases.

On January 2, 2002, a mass mailing was sent to advise FS households with earned income about SR. Effective February 1, 2002, the KAMES system will identify which households are SR. On the night of 2/1/02, a conversion will run to identify active and suspended food stamp cases with earned income. Food stamp cases subject to SR with a certification period greater than 7/31/02 will have the end date shortened to 7/31/02. Please reference ELO-02-01-02, dated 1/11/02, subject, “Simplified Reporting”, for a list of notices and handout that explains SR.

The Table of Contents is revised to add MS 6705, Simplified Reporting Requirements.

MS 6600 is revised to state that all earned income households, including self-employed households, are certified for six months. MS 6600 is also revised to state that households certified more than 12 months that incur one-time medical
expenses in the first 12 months may have their expenses averaged over the remainder of the first 12 months of the certification period; or budgeted in one month; or averaged over the remainder of the certification period.

MS 6700 has been revised to add reference to the simplified reporting requirements and add the ABAWD statement of working below 20 hours per week.

MS 6705 is created to provide new procedures for the reporting requirements for households with earnings.

MS 6730 is revised to note the change of reporting requirements for earnings households in MS 6705.

SUBJECT: Kinship Care Program

Volume III

The Table of Contents for Volume III is revised to add section 5000-5199. The following manual sections have been created to incorporate the Kinship Care Program.

-MS 5000 Kinship Care Overview
-MS 5010 Individuals Served by Kinship Care
-MS 5020 Available Services/Benefits to Kinship Care Cases
-MS 5030 Kinship Caregiver Responsibilities
-MS 5040 Kinship Care Criteria
-MS 5050 Standard Filing Unit Exception
-MS 5060 Child Support Requirements
-MS 5070 Resource Limit
-MS 5080 Countable Income
-MS 5090 Benefit Payment and Income Scale
-MS 5100 Authorizing Kinship Care Payments
-MS 5110 Kinship Care Overpayments

MS 5000 is a new section which provides an overview of the Kinship Care Program. Kinship Care allows the placement of an abused, neglected or an orphaned child, due to the death of both parents, with an approved relative rather than being placed in foster care. Kinship Care uses TANF funds and is processed through KAMES. Protection and Permanency staff will work closely with Family Support staff during the initial processing of the Kinship Care case. Ongoing communication is also vital for reporting any changes that may occur within each case.

MS 5010 is a new section which explains who can be served by the Kinship Care Program. The program can serve a child(ren) who is placed in foster care or would be placed in foster care due to: the death of both parents; in need of protection due to substantiated abuse or neglect, determined by the Cabinet and placed with a caring relative who has been determined by CFC to be a preferable alternative to placement with a non-relative.

MS 5020 is a new section which explains the various services and benefits offered to a Kinship Care case. Services may include: a child care subsidy; respite child care; family counseling; parenting training; support group referral; case management services for at least 6 months, beginning with the date of placement; educational bonus; Medicaid eligibility; and a one time start up payment. The start up payments are for the child’s immediate needs, e.g. clothing, school supplies,
additional furniture, deposit on a larger apartment, other items/services necessary to assist the child in becoming established in the new environment. The start up payments are made by Protection and Permanency workers. This policy obsoletes ELO-00-2-12, dated February 8, 2000.

MS 5030 is created to inform the Kinship caregiver of their program responsibilities. The caregiver will agree to take temporary custody of the child; assume permanent custody, if the child cannot be reunited with a parent; report, within 10 days, any changes in circumstance which may effect eligibility or the payment amount; and cooperate with child support activities.

MS 5040 is created for those children that were placed with a caretaker relative due to abuse, neglect or the death of both parents, prior to the introduction of Kinship Care. These cases will be reviewed and if the case meets the necessary criteria, the K-TAP case will be discontinued and the case will be converted to a Kinship Care case.

MS 5050 is created to explain those cases that contain siblings, living in the same household, each receiving K-TAP or Kinship Care benefits. Normal K-TAP standard filing unit should be used with the following exception. If a relative receives K-TAP for a child, not placed due to abuse or neglect, and a sibling of the K-TAP child is placed with that relative due to abuse or neglect, the relative can receive Kinship Care benefits for the abused or neglected child. The Kinship Care child is not added to the K-TAP case. A separate Kinship Care case is approved. This change in policy for Kinship Care is effective 12/1/00.

MS 5060 is created to ensure that the Kinship caregiver understands and complies with child support requirements. If the Kinship caregiver does not cooperate with child support requirements and does not file a “good cause” claim, the penalty of 25% of the maximum benefit is applied. Collected support for a Kinship Care child is forwarded to the Division of Child Support, P.O. Box 14059, Lexington, Kentucky 40512-4059.

MS 5070 is created to state the resource limit is $2,000 and the countable resources for the child are the same as used for K-TAP children.

MS 5080 is created to specify only the income of the Kinship Care child is included in the Kinship Care case. The Kinship caregiver’s income is excluded. The K-TAP criteria for countable income is used to determine what income is countable for a Kinship Care child.

MS 5090 is created to determine the monthly benefit payment based on the monthly payment scale and the income limit for a Kinship Care case. The child’s income does not reduce the monthly benefit payment. This section explains how to use the scale for multiple children in a case and how a case could possibly receive K-TAP benefits and partial or full Kinship Care benefits within the same month.

MS 5100 is a new section which explains how to enter the Kinship Care application on the KAMES system. This policy obsoletes ELO-99-12-33, dated December 10, 1999.

MS 5110 is created to provide policy and procedures concerning overpayments made in Kinship Care cases. A claim is established for overpayments due to a client
(Kinship caregiver) error and are recovered from the Kinship caregiver. There is no claim established for overpayments caused by an agency error.

Overpayments are to be repaid by the Kinship caregiver only. The claim does not follow the child. If the Kinship Care case is active, the claim is collected by applying a 10% maximum monthly reduction of future Kinship Care Program benefits, based on the number of children in the Kinship Care case, until the overpayment is repaid. If the Kinship Care case is inactive, the claim is collected from the Kinship caregiver by the Accounts Management Branch.
