The Cabinet for Health and Family Services (Cabinet or CHFS), pursuant to Kentucky Revised Statutes, Chapters 600 - 645, is responsible for the provision of services to children committed to the Cabinet and their families.

The services governed under this Agreement are conceptualized as family centered, youth guided, time limited, intensive, evidence informed practices that promote the Commonwealth of Kentucky's goals of safety, permanency, well-being, and stability for children and families served by the child welfare system. The goal is for every child to be able to return to family and thrive in the home and community.

The Cabinet seeks qualified assistance to provide adoption, foster care, therapeutic foster care, medically complex foster care, independent living, group home, group home with treatment, group home with crisis intervention, residential, residential with treatment, residential with crisis intervention, emergency shelter, and/or emergency shelter with treatment to children that are committed to the Cabinet. Committed children will be supported and treated in a residential facility, independent living program, or a foster home setting for a limited time so that the child may be safely returned home or placed in a permanent adoptive home or in another less restrictive setting as soon as possible. These services may include but shall not be limited to child-placing and child-caring services.

KRS 605.090 provides that any child committed to the Cabinet may at any time during the period of commitment be placed in an approved agency/facility of a licensed private childcare organization willing to receive the child, upon such conditions as the Cabinet may prescribe.

The Cabinet has under its care certain children for whom specialized services and/or residential treatment are needed.

It is in the interests of the Commonwealth of Kentucky for the Cabinet to provide statewide leadership in collaboration with the private child-caring facilities to continually improve and strive to ensure safety, permanency, and well-being outcomes for the children and families served by the Cabinet.

- E. Have an application on file with the Cabinet, including its preferred admission criteria and specifying the range of cognitive and intellectual functioning that the Provider has the capacity to serve. Similarly, the provider should specify service competencies, areas of expertise, specialty services or populations served. Provider will provide therapies that are evidence-based practices and trauma informed. The California Evidence-Based Clearinghouse for Child Welfare will be used to determine evidence-based practices.
 - i. Any change in the Provider's admission criteria must be submitted to the PCC/PCP liaison prior to the effective date in order to be considered valid.
- F. Maintain case records indefinitely in accordance with applicable laws and regulations.
 - i. All other records shall be maintained at least six (6) years from the date of the last payment received for the agreement period, or until audited/monitored and auditing/monitoring exceptions are resolved, whichever is later. Not assign or transfer duties and obligations of the Provider under this agreement to anyone under any circumstances, except with prior written consent of the Cabinet.
- G. Certify through the Authorized Official of the Provider that he/she has read the foregoing agreement and that he/she understands and agrees to its provisions.

- K. Ensure timely and accurate tracking of each child placed by the Cabinet with the Provider using the TWIST PCC Tracking Module as prescribed by the Cabinet. Information will be entered within two (2) business days of the placement being entered into the agency's TWIST PCC Tracking module workbasket.

M. Provide, at a minimum, two-weeks advance notice, in writing, to the Director of the Department for Community Based Services' (DCBS) Division of Protection and Permanency when a program is closing. The advance notice must be made prior to notification to other external agencies that contract with DCBS, external agencies' staff, and DCBS field staff.

N. Have email and internet access to receive reports from the Cabinet, its agent, or persons acting on behalf of the Cabinet.

2. Referrals/Admissions-

A. Provide services to children and their families on an "as needed basis".

- i. This agreement in no way obligates the Cabinet to place any child or any particular number of children with the Provider.

B. Facilitate pre-placement visits whenever possible. The pre-placement process may include informal meetings and day visits. Where appropriate and consistent with the permanency goals, children's families must be integrated into the pre-placement process as a means to establish their meaningful involvement at the inception of placement.

C. Prioritize referrals, giving consideration for children who are identified as being at risk of being placed out of state, returning from out of state placements, or those who are being discharged from hospitalization/crisis stabilization.

D. Accept selected children and their families that are referred by the Cabinet to the Provider for services and/or care in accordance with the Provider's application for a private childcare agreement.

E. Document the Provider's action on each referral by responding in writing, and returning it to the Cabinet's office, its agent, or persons acting on behalf of the Cabinet who made the referral within two (2) business days.

- i. If the Provider does not accept placement of a child, the Provider shall provide a specific reason for the refusal, in writing, consistent with the rejection reasons outlined on the Children's Review Program web application. Further, the refusal must be based on the Provider's written admission criteria on the Provider's application for a Private Child Care Agreement.

F. Admit all youth entering its program according to the needs of the youth and the capacity of the Provider to meet those needs.

- i. The Provider will not reject or eject a child if that child meets the Provider's acceptance/admission criteria except for the following reasons: licensure limitations, accreditation limitations, noncompliance with licensing standards, inadequate staff to meet the child's needs, and/or deficiencies cited during monitoring visits.
- ii. Adhering to the Provider's admission criteria, the child's level of intellectual functioning and level of aggressive or disruptive behavior shall not be used as a basis for rejecting or ejecting a child, except in circumstances as related to the above.

iii. If the Provider ejects a child on the basis of having inadequate staff to meet the child's needs, the Provider will present a plan of correction to the Cabinet PCC/PCP liaison to prevent this issue from arising with additional children.

a. The Cabinet may suspend referrals until the Provider is able to demonstrate the plan of correction has been successfully implemented and the deficiency resolved.

G. Inform the Cabinet social service worker by providing the required two week notice to the Cabinet, if the Provider determines after the child is placed, that the current placement setting is unable to meet the needs of the child, and only if the Provider was not given all of the child's known history prior to accepting the child, or due to one of the reasons in F(1) of this section, or if there are serious safety concerns involving the child, other residents, or staff. The provider will document efforts to meet the child's needs, including prior discussion with DCBS and the family, and provide future treatment recommendations for the child.

i. The Provider understands that transferring a child between programs/facilities/foster homes is highly disruptive, stressful, and adversely impacts permanency. For these reasons, a change in placement requires the consent of the Cabinet social service worker, who will follow the Cabinet's placement process guidelines.

ii. The Provider will work in partnership with the Cabinet to create a safe and appropriate discharge.

H. Notify, in writing, the Children's Review Program any time there is a change in the Provider's admission criteria, services offered by the Provider, and clinical staff providing those services.

I. Maintain a waitlist of youth accepted but not admitted to the program. Provide the waitlist, in writing, to the Children's Review Program upon request.

3. Non-Discrimination and Treatment of a Child-

A. Provide such child or children with a family type environment, including adequate food, shelter, clothing (except as otherwise provided by the Cabinet under this agreement), incidental expenses, affection, training, recreation, education, services that are consistent with their ethnic and cultural background, and opportunities for religious, spiritual, or ethical development in the faith of the child or family's choice, if any.

1. Children and their families will be treated in a culturally and linguistically competent manner, supporting, respecting, and upholding their cultural identity, religious/spiritual and linguistic needs.

2. The Provider will determine if a child or family meets special circumstances for religious or cultural exemptions by contacting the Cabinet's social service worker or utilizing the information contained within the placement packet. For example, in Native American and certain Apostolic Christian faiths, cutting the child's hair may be a violation of their religious rights and cultural freedoms.

3. The Provider will take affirmative action to assure that each child has the opportunity, without prejudice or penalty, for religious and spiritual development in the faith of the child if the child desires these types of opportunities and access can be reasonably provided in the community of placement. Children should be allowed to practice their faith with their family in their home community if it is appropriate to the treatment plan and every effort must be made to facilitate this level of practice if it is logistically feasible.

4. Regulatory provisions governing religious and spiritual development opportunities for residential programs are found at 922 KAR 1:300, Section 6(7).

5. The Provider will hire staff, to the extent possible, to reflect the race, culture, and ethnicity of the population served.

B. Adopt and enforce a written policy requiring the Provider:

1. To demonstrate consideration for and sensitivity to the racial, cultural, ethnic, sexual orientation, gender identity, and religious background of a child in its care and family.

4. General Services for a Child and Family-

A. Work in partnership with the Cabinet concerning the care of children, including scheduled treatment planning conferences, to meet federal and state requirements.

1. Provider staff will meet individually with the child at least one time per week in order to assess the child's safety and ensure that the child's educational, medical/dental, and mental health needs are being met through ongoing assessment which will inform the Cabinet's case planning and permanency planning. Provider will document time of visit, length of visit, and location.

B. Participate in Cabinet family team meetings, conference calls, and/or facilitated staffing when invited one (1) week in advance and as the Provider has staff available.

C. Provide the Cabinet social service worker information needed to coordinate plans and services to a child and a child's family (subject to limitations imposed by a court) and to conduct required case reviews such as the ten (10) day case planning conference, six (6) month case planning conference, administrative reviews, and judicial reviews.

1. Complete the Kentucky Child Adolescent Needs and Strengths (KY-CANS) within thirty (30) days of placement and update every ninety (90) days.
2. QRTP providers complete the CANS within 15 days of receipt of the QRTP Assessment.
3. Within seven (7) calendar days of the initial intake, after an incident of child episode of missing from care, as part of discharge planning if residential treatment is being considered, and at any time other indicators of risk are recognized the provider will administer a developmentally appropriate Cabinet approved rapid screener for human trafficking unless the child has disclosed trafficking or was screened as a part of planning prior to placement and trafficking was indicated. The human trafficking screener will be entered into the PCC tracking system within seven (7) days of administration.
4. Administer the Vera Institute's long-form Trafficking Victim Identification Tool (TVIT) within 7 days of a human trafficking screener which indicates administration of an in-depth human trafficking screener is needed, unless screening occurred as part of discharge planning for a child transitioning to a residential treatment program that is specialized in service provision to trafficked and at-risk youth.

D. Comply with the Cabinet's Standards of Care. The Standards of Care are attached as Attachment C and are subject to change. Compliance with these standards will be a factor in the Cabinet's selection of the Provider with whom children will be placed.

E. Provide each committed child with a personal allowance of at least those amounts shown in PCC Attachment A and document the disbursements.

1. Personal allowances are an entitlement of the child and may not be disbursed as contingent upon the child's behavior or taken or withheld as a means of punishment.
2. The Provider will not require the child to spend their allowance money on family or group activities initiated by the Provider, however the child may spend allowance money on items or activities that are optional or in addition to the initiated activity.

F. Use the child's clothing allowance to provide and maintain a minimum of five (5) seasonally appropriate non-uniform outfits, in addition to necessary sleepwear, outerwear, etc.

1. Any exceptions to this must be approved by the Cabinet's social service worker.
2. The Provider must give any unspent clothing allowance to the child, Cabinet social service worker, or sent as designated by the Cabinet social service worker.
3. At discharge, the Provider will pack and have ready for transport all the child's clothes and belongings.
4. Any unspent clothing allowance must be provided within fourteen (14) days of the child's discharge from the placement.
5. A written inventory of the child's clothing and accounting of the child's allowance must be provided to the Cabinet social service worker within fourteen (14) days of discharge.

G. Develop and maintain a Lifebook for each child receiving services or care under the provision of this agreement. Emergency Shelter providers are not required to complete Lifebooks due to the short-term nature of the placement. Reimbursement of Lifebook expenses is included in Attachment A, Rate Schedule. Provide the child's Lifebook to the Cabinet's social worker upon discharge of the child from the Provider.

H. Inform the Cabinet social service worker of any employment of any child receiving services or care under provision of this agreement and screen proposed work assignments and employment for compliance with Child Labor Laws, KRS Chapter 339.

1. Provider will ensure that youth have access to independent living services including the Cabinet approved LYFT Learning independent living curriculum and other provisions in accordance with 922 KAR 1:310 and 922 KAR 1:340. Upon completion of the formal independent living curriculum, the material, including the Cabinet approved assessment, shall be submitted to the Cabinet Independent Living Specialists for the review and the processing of the youth's stipend request.

L. Prohibit the use of corporal punishment for children in the custody of the Cabinet.

M. Prohibit the use of cameras to monitor youth bedrooms and bathrooms except with written consent of the Director of the Division of Protection and Permanency or designee. Any request for exception to this provision must include reason for the request that relates to immediate safety issue for the youth. This does not include monitors in infant bedrooms.

5. Reasonable and Prudent Parent Standard-

A. Implement use of the Reasonable and Prudent Parent Standard, as defined by Public Law 113-183, in making careful and sensible parental decisions that maintain the health, safety, and best interests of a child in the custody of the Cabinet, while at the same time encouraging the emotional and developmental growth of the child, that a Provider's caregiver, which includes a Provider's foster parents or designated on-site officials, must use when determining whether to allow a child in care to participate in extracurricular, enrichment, cultural, or social activities. Such activities include sports, field trips and overnight activities that may involve the signing of permission slips or arranging transportation for the child to and from these activities. Such decisions should maintain the health, safety, and best interest of the child while at the same time encouraging the emotional and developmental growth of the child.

B. If a child-caring facility, designate an on-site official to be available 24 hours a day who is trained and authorized to apply the reasonable and prudent parent standard to decisions involving the participation of a child in age or developmentally appropriate extracurricular, enrichment, or social activity.

In accordance with 2016 KY Acts Chapter 115, the Provider's caregiver, which includes a Provider's designated on-site official, will not be liable as a result of their approval of the participation of a child in the custody of the Cabinet, in an age or developmentally appropriate activity, so long as the on-site official acts in accordance with the reasonable and prudent parent standard.

B. Secure the necessary medical services for all children, with these services to be from physicians and other vendors who accept the child's medical or insurance card whenever possible. To the extent possible, children should be followed by their home/community medical practitioners to ensure continuity of care and ongoing home/community connection.

1. If the child is not eligible for medical assistance, the Provider shall direct the vendor to send any bills not covered by insurance or paid by the parents or third-party sources to the Cabinet's office having case responsibility for approval.

2. If the child is eligible for medical assistance and a medical card is not yet available, the Provider must communicate this information to the Cabinet children's benefits worker in an attempt to expedite treatment.

3. The Provider shall provide documentation of medical Provider's refusal to bill the Cabinet when seeking reimbursement for medical expenses paid on behalf of children placed in their care. Cabinet's payment of these expenses will be contingent upon this documentation.

8. Family Engagement-

- A. In partnership with the Cabinet, provide culturally and linguistically competent services that are youth guided, family driven, and congruent with the DCBS family case plan and/or visitation agreement. In order to promote healthy relationships between children and their parents and siblings while placed in foster care or in a residential setting, the Provider's service provision should focus on preserving and enhancing the connections between the children and their extended family, community, and school.
 - 1. This includes offering family therapy/counseling and support when the family is available and maintaining contact regarding the child's/family's progress and on-going treatment and service needs. Family therapy/counseling should be provided when it is clinically appropriate. Provider must not require any form of payment from the youth's family for family counseling/therapy including therapeutic telephone calls and visits.
 - 2. The Cabinet will make decisions regarding separation of siblings and visitation. In those circumstances when the siblings are not placed together as agreed upon by the Cabinet, the Provider must provide visitation or other ongoing interaction between the siblings, unless the interaction would be contrary to sibling's safety or well-being.
 - 3. If the Provider has reason to believe that the interaction would be contrary to a child's safety or well-being, the Provider must submit in writing the reasoning to the Cabinet social service worker.
 - 4. The Provider must not suspend visitation or contact prior to receiving permission from the Cabinet social service worker unless the Provider has reason to believe that the interaction would cause an immediate risk to the child's safety. The Provider will not suspend visits as a form of discipline.
 - 5. The Provider must provide the Cabinet social service worker with potential relative placement resource information obtained through assessments, engaging the family, or counseling.
- B. Accept the assignment of visitation responsibilities in accordance with Title IV-B, caseworker visitation requirements.
 - 1. The Provider must conduct monthly face-to-face visits in accordance with federal and state requirements with each child placed by the Cabinet with the Provider, in the child's current place of residence.
- C. When there is a goal of return to parent or permanent relative placement, have and follow a written policy requiring the Provider to not only involve the child's family in the development, implementation, and evaluation of the child's Individual Treatment Plan (ITP) but to ensure the process is youth guided and family driven to more actively engage the child and the child's family in the child's treatment, unless directed otherwise by the Cabinet social service worker.
 - 1. To the extent possible, the child's family should be included in the Provider's services to promote timely achievement of permanency.

9. Transportation-

- A. Provide transportation regarding routine daily care including medical, dental, orthodontic, school, therapeutic services, family and sibling visitation, and court requested appearances, within a forty (40) mile radius [up to eighty (80) miles round trip] of the placement location.

1. The Cabinet social service worker will give one (1) week advance notification when the Provider is to provide transportation within a forty (40) mile radius of the placement location to appointments scheduled by the Cabinet.
 2. In addition to transportation related to routine daily care, mutually satisfactory arrangements for other scheduled appointments may be made between the Provider and Cabinet social service worker, which is covered by the per diem.
 3. Mutually satisfactory arrangements for scheduled appointments or transportation needs exceeding the forty (40) mile radius of the placement location may be made between Provider and Cabinet social service worker. The Cabinet social service worker will request transportation one (1) week in advance. The Provider will be reimbursed at the current state transportation reimbursement rate per mile beyond the forty (40) mile radius of the placement location.
 4. If the Provider is not able to safely transport the child due to the child's behavior or risk of elopement, the Provider must notify the Cabinet social service worker at least 24-48 hours prior to the appointment time.
 5. Every Student Succeeds Act (ESSA) transportation will be worked out between the school, the Cabinet and the Provider and negotiated on a case-by-case basis. Therefore, the provider may not be required to transport the youth to school if special arrangements have been made for the child to remain in the same school under ESSA guidelines.
- B. Allow children referred to the Kentucky Adoption Profile Exchange (KAPE) to attend KAPE events.
- C. Use a transportation log to track transportation expenses beyond the forty (40) mile radius of the placement location.
1. Provider staff must complete the transportation log and submit it with its monthly billing invoice to the Regional Billing Specialist.
 2. If multiple children are transported, mileage beyond the forty (40) mile radius must be divided among all the children, and the Provider shall indicate on each child's transportation log that the trip's mileage was shared with another, and the number of children transported together.
 3. Upon receipt of the transportation log, the Regional Billing Specialist shall obtain verification of mileage claimed from the Cabinet social services worker for the child or children.

10. Critical Incidents, Prevention of Physical Management, and Requirements if Used-

- A. Report by email to the child's Cabinet social service worker and when appropriate notify the child's parents by established communication method within twenty-four (24) hours, or the next working day, any critical incidents. Critical incidents are defined as: 1) possession of deadly weapon; 2) serious injury to another person (includes resident, staff, foster parent etc.) requiring professional medical treatment, resulting from a conflict with a child; 3) serious injury to a child requiring professional medical treatment (includes sexual assault and excludes physical injury requiring first aid only); 4) missing from care resulting in notification of law enforcement; 5) suicide attempts requiring professional medical attention; 6) criminal activity by a child resulting in notification of law enforcement (does not include those acts deemed to be status offenses); and 7) a sexual acting out incident outside of developmental norms and the normal limit of functioning for the particular child.
- B. Agree to report to the Cabinet immediately the death of a child, psychiatric/medical hospitalization, and allegations of child abuse/neglect. Such reports must be made to the child's Cabinet social service worker.
1. In situations involving reports of suspected child abuse/neglect, the Cabinet for Health and Family Services, Office of Inspector General, Division of Regulated Child Care, Child-Caring/Child-Placing Branch must also be notified.
 2. Allegations of child abuse/neglect must be reported in accordance with KRS 620.030 and to the Cabinet's Child Abuse Hotline at 1-877-597-2331 (1-877-KYSAFE1).
 3. The Provider agrees that Cabinet staff conducting child abuse investigations in a non-familial private child-caring setting have complete private and immediate on-site access to the alleged victim. When applicable, the Provider must assist Cabinet staff in providing access to the alleged perpetrator(s). Additionally, the Cabinet social service worker must have complete access to, including the right to inspect and copy, all current clinical, historical, medical, and contextual information and documentation.
- C. If the Provider uses physical management/restraint or seclusion, the provider must commit to prevent and reduce the use of these potentially traumatizing procedures of last resort and have established guidelines and policies governing the prevention and use of the emergency procedures of last resort that are at a minimum consistent with accreditation standards and in accordance with 922 KAR 1:300.

1. Physical management/restraint or seclusion will not be used as punishment, forced compliance, or retaliation.
- D. Report data on the use of physical management/restraint and seclusion in accordance with 922 KAR 1:300, in a manner that is consistent with accreditation reporting formats and requirements to the Cabinet or its agent by the Provider in an accurate and timely manner.
- E. Establish systems for tracking the frequency, location, and type of critical incidents as defined by this agreement, including those involving physical management/restraint and demonstrate use of data to prevent further use.
- F. Implement an administrative process to review all critical behavior incidents and if physical management is used by the Provider, the use of physical management, incident by incident.
 1. Documentation of this administrative review must record the assessment as to whether the restrictive procedure was necessary, if physical management was conducted according to defined Provider standards, documented, and reported as required, whether follow-up corrective action is warranted, and must record that staff received this feedback.
- G. Staff members who use physical management will receive a minimum of 16 hours of training annually in physical management, seclusion, and approved methods of de-escalation from a nationally recognized accreditation organization approved by the Cabinet.
- H. Implement an effective prevention framework that will include the required use of de-escalation plans to prevent conflict, violence and the use of seclusion and restraint.

Crisis evaluations and debriefings with youth and staff will occur within one business day. Agency leadership, and other staff as needed, will then use information obtained during the debriefing process to analyze the critical incident and work to facilitate improved outcomes for the specific youth and the agency as a whole.
- J. Develop and implement alternatives to restraint and seclusion such as sensory interventions, soothing planning, sensory rooms, or other alternatives.

11. Bed Holds for a Child-

- A. Request a two (2) week paid "bed hold" for children needing medical/psychiatric hospitalization or missing from care, assuring the child can return to the same facility during that period of time.
 1. Paid bed holds are not applicable when a Provider transfers a child between its own programs (i.e., facility and/or foster homes).
 2. If, at the onset of the hospitalization or the missing from care episode, the Provider agrees to hold a placement, i.e., bed, for the child and the Cabinet social service worker agrees that the plan is for the child to return to the same facility/emergency shelter, the request for a bed hold is initiated by the Provider. The Cabinet will respond in writing to the written request for a "bed hold" within two (2) business days of the request. Once a "bed hold" has been authorized, the Cabinet is responsible for payment of the "bed hold", even if the child cannot return to the placement due to circumstances beyond the Provider's control. The "bed hold" may be extended at the written request of the Cabinet for two (2) additional paid weeks if medically necessary. A bed hold will not be extended for two (2) additional weeks for emergency shelter placements. If the absence exceeds four (4) weeks with approved medical need, the child will be treated as a new admission.
 3. If during the bed hold period the Provider determines that it cannot meet the needs of the child and does not wish for the child to return to the same facility, the Provider must provide a two-week written notice to the Cabinet. The Provider shall maintain a placement for the child if discharge from a hospital or return from an elopement occurs prior to the two (2) weeks advance notice expiring. If the child does not return to the placement prior to the two (2) weeks advance notice expiring, the date of the placement disruption will be considered the discharge date, and this notice negates any obligation of the Cabinet for payment of any bed hold days.
 4. If the Provider gives a two week notice prior to the hospitalization or elopement occurring, a bed hold is applicable so that the child may return to the original placement for the duration of the notice.

5. If for any reason, the Cabinet determines at any time during the approved bed hold period that the child will not return to the same facility, written notice will be provided to the Provider, and bed hold days shall be paid only up to the date of the notice to the Provider. The date of the Cabinet's notice to the Provider will be considered the discharge date.

6. If a bed hold was applicable and was requested by the Provider, but not approved by the Cabinet, then the Provider does not have to provide a two (2) week written notice and the date of disruption from the placement will be considered the discharge date.

12. Transition and Discharge Planning-

A. Give two (2) weeks advanced notice to the Cabinet using the move notification in the PCC Tracking System prior to the discharge of a child which is unanticipated in the treatment plan.

1. Prior to tendering a two (2) week discharge notice to the Cabinet social service worker, the Provider must have documentation of regular communication to the Cabinet Social service worker and have exhausted all supportive services as necessary before a child would be discharged from the program pursuant to the two (2) weeks' notice provision. Additional supportive services might include an increased number of individual or family therapy sessions, increased case management services, a family/treatment team meeting, and additional assessments as appropriate.

2. The Provider must submit notice in the PCC Tracking System. Specific reasons for the placement disruption of the child or the unanticipated discharge, what additional supportive services were put in place, and therapeutic recommendations shall be documented in the move notification in the PCC Tracking System.

3. Anticipated discharge must not prevent a child from receiving medically necessary treatment (i.e., medical/psychiatric hospitalization).

4. The Provider will maintain the child's placement if discharge from a hospital or return from elopement occurs prior to the two (2) weeks advance notice expiring. If a bed hold was applicable and was requested by the Provider, but not approved by the Cabinet, then the Provider does not have to provide a two-week written notice and the date of disruption from the placement will be considered the discharge date.

5. Provide all information, including a discharge plan and treatment recommendations to the Cabinet social service worker and to the next placement at the time of discharge.

B. Upon a child's discharge, provide the following to the child's Cabinet social service worker and, if known, the next placement Provider:

1. Medical information, to include the child's medical passport, names and addresses of all providers that have treated the child, date of the child's last physical, dental, and vision exams; current medications (if applicable); and current prescriptions (if applicable); and

2. Education information, to include the name, location, and contact information for the most recent school attended; a copy of the child's most recent report card or progress report (if applicable); and the child's individual education program (IEP) (if applicable).

C. Upon discharge of a child that has been placed with the Provider for twenty-one (21) days or longer, provide to the child's Cabinet social service worker and to the child's next placement Provider, if known, the above mentioned items, including the Provider's most recent assessment, individual treatment plan, completed CRP-007 Children's Review Program Application for Level of Care Payment (ALP)(if applicable), and the name and contact information of the primary person responsible for the child's treatment while placed with the Provider.

D. Have a policy requiring the Provider to prepare and provide to the Cabinet social service worker a discharge packet, including the PCC/PCP Discharge Summary, that will go with the child on the date of discharge to the next placement or return home when:

1. the discharge is a planned discharge; or
2. either the Provider or DCBS gives a two (2) week notice.

E. In the event of an unplanned discharge, prepare and submit to the Cabinet social service worker the PCC/PCP Discharge Summary the first business day following the date of discharge.

F. Comply with discharge requirements given within these prior provisions:

1. Section 2.00, 4.F.5

 - 1. The facility must obtain written documentation from a licensed health care Provider stating that the designated direct care staff has received training on how to meet the specific needs of the medically complex child.
 - 2. The facility must submit to the assigned Cabinet medically complex liaison the written documentation from the health care Provider along with a plan specifying the Provider's ability to meet the child's needs.
- C. Cooperate with the Cabinet's six (6) month review to determine the goals for children and length of stay. Family input will be considered in determining the child's goals. Justification for an extension for residential care beyond the time agreed to in the treatment plan must be completed by the treatment team, which shall include the Cabinet social service worker. Extensions shall be approved by a Cabinet Family Service Office Supervisor.

Rates are all-inclusive and cover the total cost of care, except for transportation as set forth in PCC Agreement, other special expenses set forth in this attachment and additional Medicaid services not covered in the per diem that may be billed and reimbursed by Medicaid. The admission date of the child shall be included for payment but the release date is excluded from payment, EXCEPT for emergency shelters where both the admission date and release date of the child shall be included for payment.

Non-QRTP rate	\$193.50
Level of Care 5S	\$302.10
Emergency Shelter with Treatment	\$220.59

* When a committed infant is placed with a committed mother in a PCC, the rate for the infant is the therapeutic foster care Level of Care I rate, unless the infant has been deemed medically complex and assigned a level of care. An infant deemed medically complex as well as the committed mother's rate is reflected by the assigned Level of Care.

** In instances in which the committed youth retains custody of their child and is placed in the same placement as the child, the provider will receive a parenting youth supplement for the committed youth's child. The parenting youth supplement will remain in effect for the duration of the placement in which the youth in the custody of the Cabinet and their child remain together. The private provider may assist the committed youth in applying for appropriate financial resources.

The above rates include the following minimum amounts:

Age of Child at:

End of Month	Monthly Clothing	Monthly Personal Allowances	Monthly Incidentals
0-2	\$25.00	\$0.00	\$6.00
3-4	\$30.00	\$1.00	\$5.00
5-11	\$35.00	\$7.50	\$5.00
12 & Over	\$40.00	\$20.00	\$10.00

Special expense requests have specific monetary reimbursement limits and may require prior approval. The Family Services Office Supervisor (FSOS) approves all requests requiring prior approval under \$250 and the Service Region Administrator (SRA) approves all requests \$250 and over requiring prior approval (*except special clothing request as noted below). Some requests for special expense reimbursement require receipts prior to payment. The following is a list of special expenses that the Cabinet for Health and Family Services (CHFS) may reimburse, which includes reimbursement limits and prior approval requirements, if applicable. Reimbursement of special expense requests must be submitted within six (6) months after the expenses were incurred.

Winter Holidays If the child is to remain in the facility for the majority of the holiday break, CHFS will reimburse sixty dollars (60) for winter holiday gifts. CHFS will not reimburse the sixty dollars (\$60) for winter holiday gifts if the child will be on extended home visit (two (2) weeks or longer) during the winter holiday. No prior approval or receipts required.

Birthday CHFS will reimburse twenty-five dollars (\$25) for birthday gifts during the child's birth month if the child's birthday occurs while the child is placed with the Provider. No prior approval or receipts required.

School Supplies CHFS will reimburse thirty-five dollars (\$35) for school supplies for children age twelve (12) and under and sixty dollars (\$60) for children age thirteen (13) and older at the beginning of the school year. In foster care programs the PCP Provider shall pay the special school expenses to the foster parent unless the PCP furnishes all school supplies directly to the foster child. No prior approval or receipts required.

Year Books CHFS will reimburse up to sixty dollars (\$60) for year books for children placed in a school district at the end of a school year, as appropriate. Receipts are required.

Life Book Expense CHFS will reimburse up to seventy dollars (\$70) for life book start-up expenses for the initial six (6) month placement period per child. Ongoing expense allotment is up to twenty-five dollars (\$25) every six (6) months per child for maintenance of the life book after the initial start up costs. Regional Billing staff should verify a child's lifebook expense balance prior to making these purchases. Reimbursement is made to the PCC/PCP that can then reimburse its foster home. No prior approval. Receipts are required.

Senior Expense CHFS will reimburse \$650.00 for senior expenses. Examples may include, but are not limited to cap/gown, class ring, invitations, senior/prom pictures, ACT/SAT testing or other senior expenses. Regional billing staff should verify a child's senior expense balance prior to making these purchases. If the child does not utilize their annual school supply allotment of sixty dollars (\$60) it may be used to supplement their senior expenses. A receipt is necessary for reimbursement on each of these senior expenses. These expenses can be used during the youth's junior year, but only if the youth is on track to graduate. No prior approval. Receipts are required.

School Pictures - CHFS will reimburse the purchase of the least expensive package of school pictures, one time per year, for children K – 11. A receipt is necessary for reimbursement. No prior approval. Receipts are required.

Initial Clothing -

When a child enters CHFS care for the first time and goes directly into private child caring or child placing placement, the initial clothing allotment should follow the same guidelines as the standard of practice for entering DCBS foster homes. Prior approval and receipts are required. The amounts are as follows:

Birth to 1 year of age	\$100.00
1 to 2 years of age	\$120.00
3 - 4 years of age	\$130.00
5 - 11 years of age	\$180.00
12 – and older	\$290.00

CHFS may allow additional clothing money in the event of extenuating circumstances such as growth spurts, sudden weight loss or gain, or loss of clothing due to placement changes. The FSOS may approve a special clothing purchase up to \$250. The approval is based on the individual need of the child and must follow the special expense request process. Prior approval and receipts are required.

Expenses regarding uniforms (when applicable) are built into the daily rate received by the PCC. No additional money is provided for uniforms. It is the PCC's responsibility to ensure that the child also has regular clothing for the duration and upon release from the program. Agencies who utilize uniforms shall ensure that upon discharge youth has at least five (5) non-uniform outfits (pants and shirts). No additional money is provided to the PCC for the purchase of the five (5) non-uniform outfits.

Psychological Evaluations -

PCC's will bill Medicaid provider for psychological evaluations that are deemed medically necessary, or court ordered. If the psychological evaluation is not covered by the child's medical insurance and has prior approval of the SRA, CHFS will pay the Provider upon receipt of an itemized invoice from the Provider of the service.

Medical Expenses -

The Provider should not pay for medical expenses. When choosing medical providers, the Provider will utilize, whenever possible, providers who accept the child's medical insurance. The medical provider must bill the child's medical insurance directly. Should the child's medical insurance deny the claim, CHFS will reimburse the medical provider upon receipt of a detailed invoice and copy of the medical insurance's denial letter. The Cabinet does not reimburse for over-the-counter medication, medical supplies, or devices.

Recreation -

CHFS does not reimburse fees associated with sports or school related activities. These costs are reported in the Provider time study and cost report data and are calculated into the per diems.

Damages -

Expenses associated to replace or repair damage to the PCC facility caused by the child are built into the daily rate received by the PCC.

These costs are the responsibility of the PCC. Expenses to replace or repair damage to the PCC facility should be included in the total PCC expenditures as part of the cost reports submitted to the Cabinet by the PCC. These expenditures are then factored when determining the overall per diem.

COMMONWEALTH OF KENTUCKY CABINET FOR HEALTH AND FAMILY SERVICES STANDARDS OF CARE

Program reviews are to be objective assessments of the extent to which defined standards of care are met. The following are standards of care, which the program review workgroups have concluded were particularly important to assess and which have been approved by the Cabinet. The program review workgroups consist of representatives from Children's Review Program, the Cabinet, and the Provider community.

Child-Caring Standards of Care

1. Children should be safe from harm by other children, staff or the environment of care.
2. Children should feel respected by staff and appreciated for their strengths and capabilities.
3. Children's needs should be assessed on admission to the program.
4. Children's needs should determine the treatment (or service) plan and discharge plan.
5. Children's needs should determine the service delivery as prescribed in the treatment plan.
6. Children should receive services, which change over time, as their needs change.
7. Children should receive services, which are coordinated between Providers, both inside and outside the program.
8. Children (as developmentally appropriate) should participate in decisions regarding their treatment or services, including discharge.
9. Children should maintain a relationship with their social service worker and family, where appropriate, while in the program. The program has the responsibility to provide the opportunity for children to maintain these relationships, including providing visitation services as indicated by the child's visitation agreement.
10. Children should participate in treatment with their family when the permanency goal is family reunification. In such cases, the program has the responsibility to provide opportunities for children and their families to participate in treatment together, including family therapy/counseling and visitation, or document why such opportunities are inappropriate.

PCC ATTACHMENT C, page 2

11. Children should receive services, which are consistent with their religious, ethnic and cultural background. The program has the responsibility to identify and reduce cultural barriers to effective treatment, to affirm the positive aspects of the children's cultural heritage, and to provide an environment, which encourages the children's cultural development.

12. Children should have opportunities to participate in age or developmentally appropriate extracurricular, enrichment, cultural, or social activities that maintain their health, safety and best, interest while at the same time encouraging their emotional and developmental growth. The program has the responsibility to ensure that a designated, on-site official is available 24 hours a day who is trained and authorized to apply the reasonable and prudent parent standard to decisions involving the participation of children in age or developmentally appropriate extracurricular, enrichment or social activities and that the designated official is trained to exercise care, skill, and judgement, as well as consider factors unique to each child when making reasonable and prudent parenting standard decisions.
