<sup>a</sup> **SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state's STCs at time of SUD demonstration approval. For example, if the state's STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

<sup>b</sup> **Implementation date of SUD demonstration:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

DY5Q1 Summary:

KY Department for Medicaid Services (DMS) received a temporary extension through 9/30/24 to the state's Section 1115 Demonstration. KY will continue to work CMS to determine next steps to implementation during the extension period and any needed changes or monitoring and/or evaluation.

DMS continued to issue DMS residential provisional certifications through this reporting period and review the attestation process for areas of improvement to align more with ASAM LOC Certification elements and ensure clarity in the process and expectations to be less burdensome for the provider and Department.

DMS continued to draft regulations to support State Plan Amendment (SPA) approved DY4Q4 to add additional Behavioral Health practitioner types to address workforce shortage and relative challenges, as needs and access to services continue to grow, however workforce shortage continues to be a challenge to providing services. Filing and implementation of these regulations and policy is to be determined.

During this reporting period, KY noted the following regarding monitoring: Increases in utilization of services for SUD (Metrics 2-12), including beneficiaries with SUD diagnosis receiving SUD treatment, specifically Medication Assisted Treatment (MAT). KY did see an increase in ED and inpatient stays per 1,000 beneficiaries with SUD; while in previous quarters began to see more consistent decreased in these areas. KY continues to evaluate the demonstration, as well as impacts beyond implementation, such as the PHE, and its impact to the demonstration and outcomes.

DMS also continues to collaborate with statewide agencies to discuss SUD/OUD initiatives such as assessing quality of SUD treatment, overdose prevention and implementation of the Behavioral Health Conditional Dismissal Program and legislative initiatives related to recovery housing and support services.

KY continued to partner with state agencies and engaging with CMS regarding KY's pending incarceration amendment and Reentry Demonstration opportunities; DMS began drafting an amendment application with anticipation to submit in DY5Q2.
