Krista Quarles, (502) 564-6746, CHFSregs@ky.gov

(1) Provide a brief summary of:

- (a) What this administrative regulation does:** This administrative regulation establishes the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services. This administrative regulation contains a clear statement about federal approval as it relates to dental services. In addition, policy relating to the amount and approval of implants as well as clearer dental policy and fee schedule information. Additional restrictions have also been included around the use of orthodontic braces and space maintainers. Finally, a hospital call, ambulatory surgical center call, or extended care facility call based on dental pain may now be subject to coverage.
- (b) The necessity of this administrative regulation:** This administrative regulation is necessary to establish the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.
- (c) How this administrative regulation conforms to the content of the authorizing statutes:** This administrative regulation conforms to the content of the authorizing statutes by establishing the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.
- (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes:** This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

- (a) How the amendment will change this existing administrative regulation:** This is a new administrative regulation.
- (b) The necessity of the amendment to this administrative regulation:** : This is a new administrative regulation.
- (c) How the amendment conforms to the content of the authorizing statutes:** This is a new administrative regulation.
- (d) How the amendment will assist in the effective administration of the statutes:** This is a new administrative regulation

(3) List the type and number of individuals, businesses, organizations, or state and local

government affected by this administrative regulation: This administrative regulation will impact all adult and children recipients in the Medicaid program by establishing and enhancing the quality of dental services that can be offered to recipients. There are currently 1.7 million individuals in the Medicaid program. The adult population that is newly eligible could include as many as 900,000 individuals from the traditional and expansion Medicaid populations. In addition, Medicaid participating dental service providers will be affected by the amendments. Currently, there are 1,078 individual dentists, 158 group dental practices, sixty-nine (69) individual physicians who perform oral surgery, and nine (9) group physician practices that perform oral surgery enrolled in Kentucky's Medicaid program.

- (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
 - (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Dental providers will need to ensure that they provide services within the limits established in the administrative regulation if they wish to be reimbursed for services.
 - (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The amendment imposes no cost on the regulated entities.
 - (c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individual beneficiaries will benefit from the additional dental services and visits. Dental providers will benefit from the opportunity to provide services to an additional population of Medicaid beneficiaries.
- (5) Provide an estimate of how much it will cost to implement this administrative regulation:
 - (a) Initially: The department shall meet its budget obligations pursuant to HB 1 of the 2022 Regular Session. DMS anticipates that costs will be shifted within the Medicaid program and will be reflected in capitation rates of about \$1.00 PMPM for each member. This additional cost will be impacted by anticipated savings in hospital emergency department utilization, opioid utilization rates, and oral surgery. DMS anticipates savings and decreased utilization in these more expensive care settings. For example, Medicaid enrollees with preventive care may have 43% lower costs and can be as much as eight times less likely to have an emergency department visit for dental care. In addition, up to 1 million work hours could be saved in the Commonwealth if emergency dental care is avoided for Medicaid recipients. Finally, consistent with national trends, DMS expects additional job-seeking opportunities to be available to the adult population as a result of enhanced dental care and this could result in a movement out of the Medicaid program for some adult beneficiaries.
 - (b) On a continuing basis: DMS anticipates that movement out of the Medicaid program will intensify in future years. DMS further anticipates that preventive care will reduce later utilization. The department will revisit the PMPM for this service category with contracted actuaries prior to making future budget requests.
- (6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social

Security Act, Title XIX and matching funds of general and restricted fund appropriations.

- (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.**
- (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.**
- (9) Tiering: Is tiering applied? (Explain why tiering was or was not used.) Tiering is not applied within this administrative regulation as dental services are available to all Medicaid recipients.**

 - (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation is not expected to generate revenue for state or local government.
 - (c) How much will it cost to administer this program for the first year? The department shall meet its budget obligations pursuant to HB 1 of the 2022 Regular Session. DMS anticipates that costs will be shifted within the Medicaid program and will be reflected in capitation rates of about \$1.00 PMPM for each member. Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-):

Expenditures (+/-):

Other Explanation:

(4) Estimate the effect of this administrative regulation on the expenditures and cost savings of regulated entities for the first full year the administrative regulation is to be in effect.

(a) How much cost savings will this administrative regulation generate for the regulated entities for the first year? DMS anticipates cost savings for dentists who will be able to receive Medicaid reimbursement for a previously uncovered population of 900,000 people. The dentists would have previously sought private pay reimbursement for these services and many recipients may have not accessed services as a result. These changes therefore provide a stable source of funding for these services.

(b) How much cost savings will this administrative regulation generate for the regulated entities for subsequent years? DMS anticipates cost savings on an ongoing basis for dental services providers because expanded services for adult and children beneficiaries will now be from a more stable funding source.

(c) How much will it cost the regulated entities for the first year? DMS does not anticipate that regulated entities will incur costs as a result of this administrative regulation in the first year.

(d) How much will it cost the regulated entities for subsequent years? DMS does not anticipate that regulated entities will incur costs as a result of this administrative regulation in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Cost Savings(+/-):

Expenditures (+/-):

Other Explanation:

(5) Explain whether this administrative regulation will have a major economic impact, as defined below. *"Major economic impact" means an overall negative or adverse economic impact from an administrative regulation of five hundred thousand dollars (\$500,000) or more on state or local government or regulated entities, in aggregate, as determined by the promulgating administrative bodies. [KRS 13A.010(13)]*

The administrative regulation will not have a major economic impact – as defined by KRS 13A.010 – on regulated entities. DMS anticipates that this administrative regulation may result in additional reimbursement for dentists.
