

STATEMENT OF EMERGENCY  
907 KAR 1:026E

This emergency administrative regulation is being promulgated to incorporate and fully implement a received federal approval that extends coverage of audiology, dental, and vision coverage to all Medicaid recipients. Specifically, this emergency administrative regulation is being promulgated to expand dental services to adults throughout the Medicaid program. This administrative regulation is needed to be in effect prior to January 1, 2023 in order to ensure coverage of audiology, dental, and vision services for the upcoming calendar year. This emergency administrative regulation is needed pursuant to KRS 13A.190(1)(a)2. to preserve state and federal funding. Failure to implement the received federal approval and provide coverage for eligible recipients within a timely fashion could result in a loss of federal funds. In addition, the Department for Medicaid Services (DMS) needs this administrative regulation pursuant to KRS 13A.190(1)(a)1. to preserve the welfare of Medicaid recipients. Over 900,000 Medicaid recipients could immediately benefit from the availability of audiology, dental, and visual coverage.

This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

## REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation Number: 907 KAR 1:026E

Cabinet for Health and Family Services

Department for Medicaid Services

Agency Contact Persons: Jonathan Scott, (502) 564-4321, ext. 2015, jonathant.scott@ky.gov; and Krista Quarles, (502) 564-6746, CHFSregs@ky.gov

(1) Provide a brief summary of:

- (a) What this administrative regulation does: This administrative regulation establishes the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.
- (b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.
- (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.
- (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the Kentucky Medicaid program provisions and requirements regarding the coverage of dental services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

- (a) How the amendment will change this existing administrative regulation: The amendment changes the administrative regulation by removing age limits throughout the administrative regulation. Previously, nearly all services in the administrative regulation were limited to individuals under the age of twenty-one (21). In addition, the term “direct provider contact” has been changed to “direct provider interaction” to better synchronize with the fuller introduction of telehealth required by 2018’s SB 112 and 2021’s HB 140. In addition, the usage of the term “locum tenens dentist” is removed because federal law limits the use of locum tenens professionals to physicians. Additional restrictions have also been included around the use of orthodontic braces and space maintainers. Finally, a hospital call, ambulatory surgical center call, or extended care facility call based on dental pain may now be subject to coverage. The department is also going to continue to enforce some age limited prior authorizations.
- (b) The necessity of the amendment to this administrative regulation: The amendment is necessary to comply with a new state plan amendment (SPA) to extend coverage to adult Medicaid recipients.
- (c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by implementing a state plan

- amendment.
- (d) How the amendment will assist in the effective administration of the statutes: The amendment assists in the effective administration of the statutes by effectively implementing a state plan amendment.
- (3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will impact all adult recipients in the Medicaid program. DMS anticipates that this could be as many as 900,000 individuals. In addition, Medicaid participating dental service providers will be affected by the amendments. Currently, there are 1,078 individual dentists, 158 group dental practices, sixty-nine (69) individual physicians who perform oral surgery, and nine (9) group physician practices that perform oral surgery enrolled in Kentucky's Medicaid program.
- (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
- (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Dental providers will need to ensure that they provide services within the limits established in the administrative regulation if they wish to be reimbursed for services.
- (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The amendment imposes no cost on the regulated entities.
- (c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individual beneficiaries will benefit from the additional dental services and visits. Dental providers will benefit from the opportunity to provide services to an additional population of Medicaid beneficiaries.
- (5) Provide an estimate of how much it will cost to implement this administrative regulation:
- (a) Initially: The Department for Medicaid Services (DMS) anticipates an increase of about \$1.00 for each adult beneficiary's per member per month capitation (PMPM) managed care organization (MCO) capitation rate. The total state expenditure for this amount should be about \$3.8 million. This expenditure should be balanced against expected savings that will be generated within the Medicaid adult population. A lack of dental care for the adult population is a driver of increased emergency department utilization, opioid prescribing, and later – and more expensive – medical interventions such as oral surgery. DMS anticipates savings and decreased utilization in these more expensive care settings. For example, Medicaid enrollees with preventive care may have 43% lower costs and can be as much as eight times less likely to have an emergency department visit for dental care. In addition, up to 1 million work hours could be saved in the Commonwealth if emergency dental care is avoided for Medicaid recipients. Finally, consistent with national trends, DMS expects additional job-seeking opportunities to be available to the adult population as a result of enhanced dental care and this could result in a movement out of the Medicaid program for some adult beneficiaries.
- (6) (b) On a continuing basis: DMS anticipates that additional actuarial analysis of

preventive dental utilization could reduce the annual PMPM for dental costs. Furthermore, additional savings could be generated from reduced emergency department use, oral surgery and opioid prescriptions. In addition, some movement out of the Medicaid program could be expected for adult beneficiaries able to access adequate dental care. Absent additional information, DMS will continue to anticipate a \$1.00 PMPM and an approximately \$3.8 million annual expenditure in state funds.

- (6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general and restricted fund appropriations.
- (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment to this administrative regulation.
- (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.
- (9) Tiering: Is tiering applied? (Explain why tiering was or was not used.) Tiering is no longer applied within this administrative regulation as dental services are now available to all Medicaid recipients.

## FEDERAL MANDATE ANALYSIS COMPARISON

Regulation Number: 907 KAR 1:026E

Agency Contact Persons: Jonathan Scott, (502) 564-4321, ext. 2015, jonathant.scott@ky.gov; and Krista Quarles, (502) 564-6746, CHFSregs@ky.gov

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396d(r)(3)
2. State compliance standards. KRS 194A.050(1) states, "The secretary shall promulgate, administer, and enforce those administrative regulations necessary to implement programs mandated by federal law, or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs."

KRS 205.520(3) states: "... it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Coverage of dental services is mandated only for certain children within the early and periodic screening, diagnosis and treatment (EPSDT) program for individuals under age twenty-one (21.)
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

## FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

Regulation Number: 907 KAR 1:026E

Agency Contact Persons: Jonathan Scott, (502) 564-4321, ext. 2015, jonathant.scott@ky.gov; and Krista Quarles, (502) 564-6746, CHFSregs@ky.gov

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.
2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.050(1), 205.520(3), 42 U.S.C. 1396d(r)(3).
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
  - (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.
  - (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.
  - (c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates an increase of about \$1.00 for each adult beneficiary's per member per month capitation (PMPM) managed care organization (MCO) capitation rate. The total state expenditure for this amount should be about \$3,857,900. This expenditure should be balanced against expected savings that will be generated within the Medicaid adult population. A lack of dental care for the adult population is a driver of increased emergency department utilization, opioid prescribing, and later – and more expensive – medical interventions such as oral surgery. DMS anticipates savings and decreased utilization in these more expensive care settings. For example, Medicaid enrollees with preventive care may have 43% lower costs and can be as much as eight times less likely to have an emergency department visit for dental care. In addition, up to 1 million work hours could be saved in the Commonwealth if emergency dental care is avoided for Medicaid recipients. Finally, consistent with national trends, DMS expects additional job-seeking opportunities to be available to the adult population as a result of enhanced dental care and this could result in a movement out of the Medicaid program for some adult beneficiaries.
  - (d) How much will it cost to administer this program for subsequent years? DMS anticipates that additional actuarial analysis of preventive dental utilization could reduce the annual PMPM for dental costs. Furthermore, additional savings could be generated from reduced emergency department use, oral surgery and opioid prescriptions. In addition, some movement out of the Medicaid program could be expected for adult beneficiaries able to access adequate dental care. Absent additional information, DMS will continue to anticipate a \$1.00 PMPM and an

approximately \$3.8 million annual expenditure in state funds.

(4) Estimate the effect of this administrative regulation on the expenditures and cost savings of regulated entities for the first full year the administrative regulation is to be in effect.

(a) How much cost savings will this administrative regulation generate for the regulated entities for the first year? DMS does not anticipate that cost savings will be generated for regulated entities as a result of the amendments to this administrative regulation in the first year. This administrative regulation may result in higher reimbursement for regulated entities.

(b) How much cost savings will this administrative regulation generate for the regulated entities for subsequent years? DMS does not anticipate that cost savings will be generated for regulated entities as a result of the amendments to this administrative regulation in subsequent years. This administrative regulation may result in higher reimbursement for regulated entities.

(c) How much will it cost the regulated entities for the first year? DMS does not anticipate that regulated entities will incur costs as a result of this amendment in the first year.

(d) How much will it cost the regulated entities for subsequent years? DMS does not anticipate that regulated entities will incur costs as a result of this amendment in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Cost Savings(+/-):

Expenditures (+/-):

Other Explanation:

(5) Explain whether this administrative regulation will have a major economic impact, as defined below. *"Major economic impact" means an overall negative or adverse economic impact from an administrative regulation of five hundred thousand dollars (\$500,000) or more on state or local government or regulated entities, in aggregate, as determined by the promulgating administrative bodies. [KRS 13A.010(13)]*

The administrative regulation will not have a major economic impact – as defined by KRS 13A.010 – on regulated entities. DMS anticipates that this amendment may result in additional reimbursement for dentists.
