RE: Fee-for-service COVID-19 Vaccine Coverage

The Kentucky Cabinet for Health and Family Services (CHFS) Department for Medicaid Services (DMS) continues to monitor the ongoing review and emergency use authorizations (EUAs) of COVID-19 vaccines. In anticipation of authorizations, Kentucky DMS will configure its systems to process COVID-19 vaccine administration in accordance with CMS guidance.

The Current Procedural Terminology (CPT) codes are being added to the system to include vaccine specific administration coding for the below vaccines. Since the COVID-19 vaccines are currently being provided at no cost, providers will not have to provide the vaccine CPT code on the claim. Administration codes will be billable only after the specific vaccine receives an EUA from the U.S. Food & Drug Administration (FDA). The below code set will be updated as additional vaccines receive EUAs.

(Continued)

As a reminder, members do not have any cost sharing requirements for COVID-19 vaccines, treatments, and tests.

Vaccine Code	Vaccine Name	Vaccine Administration Code	Vaccine Reimbursement Rate
91300	Pfizer-BioNTech COVID-19 Vaccine	0001A (1st dose)	\$16.94
		0002A (2nd dose)	\$28.39
91301	Moderna COVID-19 Vaccine	0011A (1st dose)	\$16.94
		0012A (2nd dose)	\$28.39

Additional information regarding COVID-19 vaccine coverage and reimbursement under the fee-for-service pharmacy benefit will be sent by Kentucky DMS's pharmacy benefit manager, MagellanRx. For information regarding coverage and reimbursement under managed care, please reach out to the appropriate managed care organization.

For all other inquiries, please contact Kentucky DMS at (502)-564-6890.
