Choosing Your Own Path:
How 1915(c) Home and Community Based Services Can Help

Department for Medicaid Services
Division of Long-Term Services and Supports
275 E. Main St. 6W-B
Frankfort, Kentucky 40621
Introduction

The Benefits of 1915(c) HCBS Waivers

- 1915(c) Home and Community Based Services (HCBS) waivers offer special, Medicaid-paid services to individuals who are aged or who have a disability.

- The goal of HCBS is to help individuals with special needs be part of their chosen community and live as independently as possible.

- Service plans are person-centered, taking into account an individual’s needs, preferences, and goals.

- Individuals receiving services in a 1915(c) HCBS waiver program also have access to Medicaid state plan services to meet their medical and other non-community based needs.

- Individuals can use community resources to close gaps when a waiver or Medicaid state plan service isn’t available.

Waiver Services

Needed services are determined by a waiver participant’s functional assessment and the person-centered planning process. Services may include:

- Companion
- Community Living Supports
- Personal Care
- Positive Behavior Supports
- Assistive Technology
- Residential Services
- Non-Specialized Respite

Medicaid State Plan

- Durable Medical Equipment
- Home Health/Private Duty Nursing
- Behavioral Health
- Inpatient Hospital
- Outpatient Services

Case managers, support brokers, or service advisors are responsible to use person-centered planning to help participants identify and access all needed services and community resources.

Receiving Services

Service Delivery Options

ABI, ABI LTC, HCB, MPW, and SCL waiver participants can receive services in one of three ways.

1. Traditional Services: A participant receives all 1915(c) HCBS waiver services from agencies.

2. Participant-Directed (PDS): A participant finds and hires their own employees to deliver some services.

3. Blended: Participants can opt to receive some services from traditional agencies and others from employees they hire themselves.

Service delivery options should be discussed during person-centered planning meetings. If you want to know more about your options, your case manager, support broker, or service advisor can help you.
