## Claim Reversal Request Transaction

Reversals must be submitted with the same Rx number as was submitted on the original paid claim.

Reversals of COB claims should be performed in the correct “back out order”, meaning LAST claim billed must be reversed first until getting to the primary claim or a claim to be re-submitted.

- If a claim has been billed as Primary, Secondary, or Tertiary and the pharmacy wishes to reprocess the secondary claim, the tertiary claim must be reversed first, then the secondary reversal. At this point the pharmacy may reprocess the secondary claim as required (the tertiary claim as well).
- The reversal of a COB claim must contain the COB segment with Other Payer Coverage Type so in the case where MedImpact is the payer of more than one claim for the Pharmacy, Rx, Date of Service and Fill Number, the claim for reversal can be correctly identified.
