The information comes from health plans and their members. Independent organizations reviewed it for accuracy. This is the most current information available.

Kentucky Medicaid compared each plan on the following:

#### Getting Care

- How well the plan provides members with access to care
- If members report they can get the care they need, when they need it

#### Children and Adolescent Wellness

- If children and adolescents receive care needed to stay healthy, such as immunizations, well-child visits, and dental visits
- If children and adolescents with behavioral health conditions get the care they need

#### Satisfaction with Plan Services

- How happy members are with their plan
- If members feel satisfied with their physicians
- If members feel satisfied with their plan’s care and services

#### Women’s Health

- If women receive tests that check for female cancers and infections
- If women receive care before and after their babies are born

#### Treatment

- How well the plan provides care and services to help people with illnesses, such as diabetes, high blood pressure, asthma, depression, and addiction

## Choosing a Health Plan

There are many things to think about when choosing a plan for you and your family. Here are some questions to ask yourself before you pick a plan:

- » Which plans have all or most of the doctors and hospitals my family and I visit?
- » Which plans have doctors with office hours and locations that are easy for my family and me?
- » Which plans offer extra services that I need or want? Such services may include health and wellness programs, extra help for pregnant women and more transportation choices.
- » How do the plans cover my medications?
- » How well did the plans do in each section of this report card?

You may have other questions or concerns that are important to you. You can contact the plans using the information below. They can tell you which providers and extra services they offer. You can also use the [Kentucky Medicaid Provider Directory](#) to find out which providers each plan offers.
