

# KENTUCKY MEDICAID PARTNER PORTAL APPLICATION NEWSLETTER

## In this edition...

New 1915i RISE Provider

Consolidated  
Appropriations Act -  
**New requirement for  
all Providers**

## 1915i RISE Provider

The 1915i RISE Initiative to support Kentuckians with Serious Mental Illness (SMI) or co-occurring Substance Use Disorder (SUD) is set to begin on 7/1/2025.

Certification for this program is completed through the Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID). Once certification is obtained, Providers can enroll in the Kentucky Medicaid Partner Portal Application as RISE Provider Type #51.

- This Provider is an Entity and cannot be linked to any other Individual Provider, Group or Entity.
- This new Provider Type is an A-Typical Provider Type which will not have a National Provider Identifier (NPI) or a Taxonomy.
- Out of state Providers may not enroll as a Provider Type 51.
- The default specialty is 511-1915i RISE Initiative specialty and is auto-populated with an open-end date.
- These providers must be certified by DBHDID and the Certification will be required in the 8.0 Document Upload screen.
- If the screen is greyed out, it is not required - as some screens are not applicable to this Provider Type.

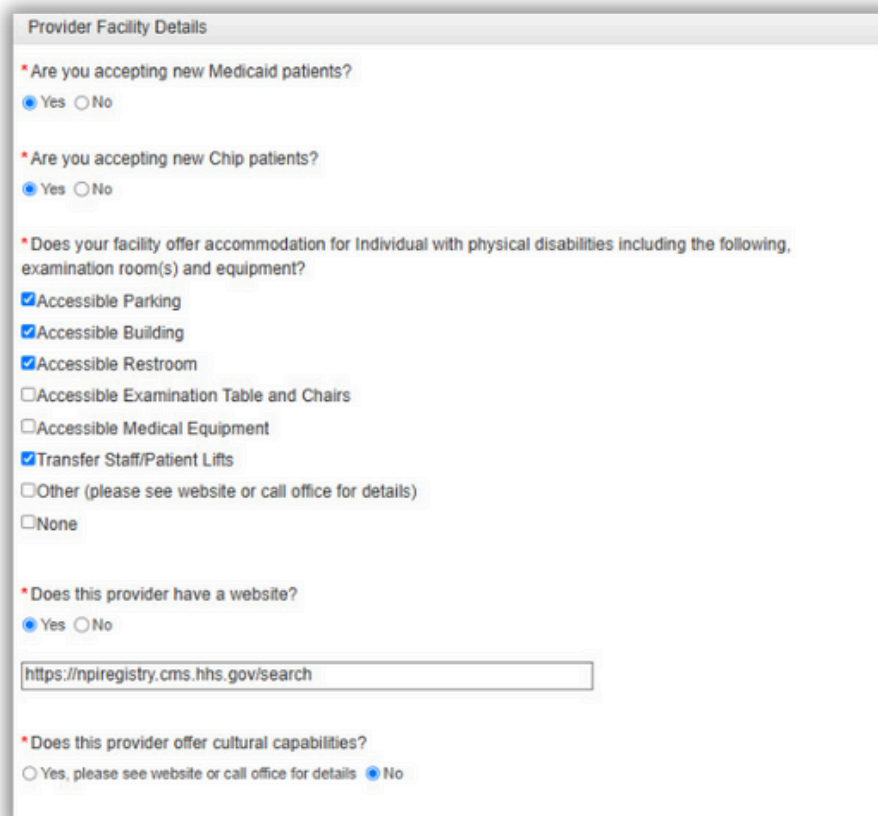

# CAA REQUIREMENTS

The Consolidated Appropriations Act (CAA), 2023 Amendments to Provider Directory Requirements from the Center for Medicare & Medicaid Services (CMS) states all providers will now be required to update additional information on their practice to be used in State Provider Directories.

To accommodate this requirement, KYMPPA has created a new screen and a new item type to allow Providers to quickly update their information.

When performing a Maintenance activity or Application instead of the Language Information screen, users will now see the “Provider Office Information” screen. This new screen allows the input of languages offered but also requires additional facility details.

- Are you accepting new Medicaid Patients?
- Are you accepting new CHIP Patients?
- Does your facility offer accommodations for Individuals with physical disabilities?
  - Accommodations offered must be identified.
- Does this Provider have a website?
  - Website address must be provided.
- Does this Provider offer cultural capabilities?

The screenshot shows a web form titled "Provider Facility Details". It contains several sections of questions and checkboxes. The first two questions are about accepting new Medicaid and CHIP patients, both with "Yes" selected. The third question is about accommodations for individuals with physical disabilities, with checkboxes for Accessible Parking, Accessible Building, Accessible Restroom, Accessible Examination Table and Chairs, Accessible Medical Equipment, Transfer Staff/Patient Lifts (checked), Other (please see website or call office for details), and None. The fourth question is about having a website, with "Yes" selected and a text box containing the URL "https://npiregistry.cms.hhs.gov/search". The fifth question is about cultural capabilities, with "No" selected.

Provider Facility Details

\* Are you accepting new Medicaid patients?  
☒ Yes ☐ No

\* Are you accepting new Chip patients?  
☒ Yes ☐ No

\* Does your facility offer accommodation for Individual with physical disabilities including the following, examination room(s) and equipment?

☒ Transfer Staff/Patient Lifts  
☐ Other (please see website or call office for details)  
☐ None

\* Does this provider have a website?  
☒ Yes ☐ No

\* Does this provider offer cultural capabilities?  
☐ Yes, please see website or call office for details ☒ No

# CAA REQUIREMENTS

To update this information without the need for submitting a Maintenance Item on an existing Medicaid ID, users can go to the Maintenance tab of KYMPPA and select “Update New Provider Directory per Section 5123 CAA 2023” from the “I want to Perform” options.

Any languages offered on the existing Provider Medicaid ID file will be defaulted in the Language list. All other questions remain the same.

This item can be submitted immediately without the need for review by DMS and will automatically update the Provider’s Medicaid ID file. For your records, you will be provided with an item number in the confirmation message once the updates are submitted.

Dashboard Application Maintenance Correspondence DMS Review Administration Search

Provider Office Information

- CMS now requires providers to update provider directory information to include additional information such as accommodations, website addresses and whether provider is accepting new Medicaid/Chip patients. Please ensure all additional required fields are completed to meet this requirement
- Select all languages offered by the provider or by a skilled medical interpreter who provides interpretation services at the provider's office
- Indicate if the provider is accepting new Medicaid patients and new CHIP patients
- Select accommodations provided at the facility
- Enter provider website if applicable and indicate if any cultural capabilities are offered at the facility

**Success:**  
Your Provider Office Information was successfully submitted. Please retain the Application ID UPD543185 for further reference.
