July 2026

In this edition:

- EFT Account Information Screen changes.

6.0 Account Information screen changes

Effective 7-8-2026, for any APP, CHW, RAP and RIN application when a new EFT account is added on the 6.0 Account Information screen, users will now be required to enter the account holder's information.

For current providers having an active EFT account on file, the user will be alerted to enter the account holders information on the 6.0 Account information screen when submitting a maintenance item without that information.

- Select Business or Individual

The screenshot displays the 6.0 Account Information screen. It features several input fields and dropdown menus. The 'Payment Type' dropdown is set to 'Electronic Funds Transfer (EFT)'. The 'Routing Number' field is empty, with a 'Get Bank Details' button next to it. The 'Bank Name' field is empty, and the 'Bank Address' field is also empty. The 'Payee Name' field contains 'test Waiver', and the 'Payee Address' field contains '2932 LEVEL GREEN ROAD, Louisville, Kentucky, 40223'. The 'Account Type' dropdown is set to 'Select One', and the 'Status' dropdown is set to 'Pending'. The 'Account Number' field is empty, and the 'Re-Type Account Number' field is also empty. The 'Account Holder Full Name' section is highlighted with a yellow box, showing two radio button options: 'Business' and 'Individual'. At the bottom of the form, there are three buttons: 'Exit', 'Back', and 'Save & Next'.

- If Business is selected, enter the Account Holder's full name: Business Name.
 - The Business Name entered must match the name provided to the bank. If the Business Name is not completed, the user will receive an error stating 'Account Holder Full Name Account Holder information is required'
