Dear Lisa Lee:

The CMS Division of Pharmacy has reviewed Kentucky's State Plan Amendment (SPA) 23-0008 received in the CMS Medicaid & CHIP Operations Group on March 2, 2023. This SPA proposes to remove the reference to Average Sales Price (ASP) + 6% on the Pharmacy reimbursement State Plan page.

In keeping with the requirements of section 1902 (a)(30)(A) of the Social Security Act, we believe the state has demonstrated that their reimbursement is consistent with efficiency, economy, and quality of care, and are sufficient to ensure that care and services are available to Medicaid beneficiaries at least to the extent they are available to the general population in the geographic area. We believe that there is evidence regarding the sufficiency of Kentucky's pharmacy provider network at this time to approve SPA 23-0008. Specifically, Kentucky has reported to CMS that 1246 of the state's 1061 licensed in-state retail pharmacies are enrolled in Kentucky's Medicaid program. With an 85% participation rate, we can infer that Kentucky's beneficiaries will have access to pharmacy services at least to the extent available to the general population since Medicaid requires that beneficiaries be provided access to all covered outpatient drugs of participating drug manufacturers with a rebate agreement through a broad pharmacy network. In contrast, commercial insurers often have more limited drug formularies and a more limited pharmacy network.

Based on the information provided and consistent with the regulations at 42 CFR 430.20, we are pleased to inform you that SPA 23-0008 is approved with an effective date of July 1, 2023.

We are attaching a copy of the signed, revised CMS-179 form, as well as the page approved for incorporation into Kentucky's state plan. If you have any questions regarding this amendment, please contact Charlotte Hammond at (410) 786-1092 or charlotte.hammond@cms.hhs.gov.

Sincerely,

Cynthia R. Denemark, R.Ph.
