

Nursing Services Technical Advisory Committee

Cabinet for Health & Family Services

10/13/2022

Call to order

Approval of June 16, 2022 and August 31, 2022 minutes

Old Business:

- Additional questions from Dr. Stone:
 - Although the federal government allows for COVID testing and vaccination, these are not listed as covered services.
 - My question at our meeting in August was about this document. I am trying to understand the process to determine how these services will be offered without the input of nurses who are practicing in schools.
 - We have incredible opportunity in KY to help improve health and education by providing these services that currently are not generating cost for the state.

- Any follow up from the APRN recommendation?

- List of Incentives from MCO's and what requirements for parents/caregivers to do to access these incentives
 - Covid Vaccinations
 - Preventative health services and Immunizations

New Business:

- Changes to KY State Regulations to align with Federal CMS language / Dee Polito

<https://www.aprnslead.com/post/change-to-kentucky-reg-is-positive-move-for-cnm-hospital-admitting-privileges>

- An overview of the new Health Disparity and Equity TAC so we can understand the work of that group and DMS's vision for improving health equity in the state.
- Next steps for the group and any follow up for the MAC?
- IEP services are reimbursed at 70% to districts. What percentage are expanded billing services reimbursed to districts?

Please see the meeting dates below for the 2023 calendar, meeting time is still **3-4:30pm**

February 9th

October 12th

April 13th

December 14th

June 8th

August 10th
