Programmatic Conditions

The following Programmatic Condition has been added:

SIRG Special Term and Condition

The intent of this special condition is to clarify requirements for satisfying 15 U.S.C. §2666(h)(3) requiring that state grant recipients shall "...maintain, and make available to the public, a list of firms and individuals within the State that have received a passing rating under the Environmental Protection Agency proficiency rating program referred to in section 2665(a)(2) of this title." When EPA discontinued the Radon Proficiency Program, two organizations were identified to certify radon service providers -- the National Radon Proficiency Program (NRPP; formally affiliated with the National Environmental Health Association) and the National Radon Safety Board (NRSB). As specified in the "State and Tribal Indoor Radon Grants Program Guidance and Handbook (January 2005; page 11)," in the absence of an existing state-run process established under a state's regulatory requirements for credentialing of radon service providers (e.g., state license), the required public list shall only be satisfied by referring consumers to the two currently-recognized, national radon proficiency programs, NRPP and NRSB. This information is available at: National Radon Proficiency Program (NRPP)

Website: www.nrpp.info

National Radon Safety Board (NRSB)

Website: www.nrsb.org

The EPA Project Officer should be advised of any changes regarding how and to whom the state refers consumers.

All Other Programmatic Conditions Remain the Same
