

Viral Hepatitis Outbreak Toolkit

Kentucky Public Health
Prevent. Promote. Protect.

HEPATITIS OUTBREAK PLAN

The mission of the Kentucky Department for Public Health is to improve the health and safety of people in Kentucky through prevention, promotion, and protection. Disease outbreaks compromise the health and safety of our population.

This Hepatitis Outbreak Plan and Toolkit was developed to rapidly detect and respond to outbreaks of hepatitis A (HAV), acute hepatitis B (HBV) and acute hepatitis C (HCV). Robust and collaborative efforts will reduce disease disparities and help ensure better health for our communities.

Hepatitis A

Preparedness, Response, &
Recovery Checklists
Testing, Reporting, &
Investigation Guidance
Immunizations
Educational Materials

Hepatitis B

Preparedness, Response, &
Recovery Checklists
Testing, Reporting, &
Investigation Guidance
Immunizations
Educational Materials

Hepatitis C

Preparedness, Response, &
Recovery Checklists
Testing, Reporting, &
Investigation Guidance
Treatment
Educational Materials
