

# WELL CHILD VISITS DURING THE COVID-19 PANDEMIC

STAYING HOME KEEPS YOU AND YOUR CHILDREN SAFE, BUT WELL CHILD CARE AND IMMUNIZATIONS DURING THE FIRST 24 MONTHS OF LIFE ARE ESSENTIAL TO LONG TERM HEALTH.

## ADAPTING TO UNPRECEDENTED TIMES

PHYSICIANS ARE MAKING ADJUSTMENTS TO USUAL CLINIC OPERATIONS TO BEST SERVE YOU!

- Telehealth when possible
- Forms, surveys, and payments handled virtually when possible
- Specific hours and rooms used for well visits and sick visits

## VACCINATIONS

- Postponing immunization visits could increase the risk of a vaccine preventable disease.
- According to CDC guidelines, physicians should prioritize newborn care and vaccination of infants and young children (up to 24 months of age).
