

Public Healthopoly Game Instructions

Objective

The objective of Public Healthopoly is to improve public health outcomes by investing in public health programs, responding to health crises, and managing funding effectively. The player with the most Public Health Funds (PHF) and the greatest public health impact wins.

Setup

1. Game Board: Lay out the board and place Chance and Community Chest cards in their designated spaces in the center of the board.
2. Fiscal Officer: Choose one player to serve as the fiscal officer to handle money, resources, infrastructure, and auctions.
3. Player Pieces: 2 – 8 players can play. Each player selects a colored token and places it on the "GO" space.
4. Public Health Funds Distribution: Each player starts with \$1,500 in the following denominations: 2x \$500
 - 2x \$100
 - 2x \$50
 - 6x \$20
 - 5x \$10
 - 5x \$5
 - 5x \$1
5. Dice and Resources: Players take turns rolling the dice; the highest roller goes first.

Game Play

1. Turn Sequence:
 - Roll two dice and move forward the number of spaces shown.
 - When you land on a space refer to the definitions sheet to learn more about the public health resource.
 - If you land on an unowned property, you may buy it from the city. If you choose not to, the property goes up for auction.
 - If you land on an owned resource, pay rent to the owner as stated on the property card.
 - Draw a Chance or Community Chest card when instructed.
 - Follow any board instructions (e.g., "Go to Quarantine," "Pay Tax").
2. Buying and Resource Building:
 - Once you own all properties of a color set, you may invest in Community Health Programs (small investments)
 - Resources must be purchased evenly across properties.
 - After four Community Health Programs are purchased, you can upgrade to Public Health Campaigns (large investments) to increase service fees.
3. Quarantine Rules:
 - If you land on "Go to Quarantine," move your token directly there.
 - Options to leave quarantine:
 - Pay \$50 at the start of your next turn.
 - Use a "Get Out of Quarantine Free" card.
 - Roll doubles within three turns (move immediately if successful; if not, remain in quarantine and pay \$50 after the third failed attempt).
4. Bankruptcy:

- If you owe more than you can pay, sell and mortgage resources, or trade with other players.
- If unable to pay debts even after selling/mortgaging resources, you're under resourced, bankrupt and out of the game.
- Winning the Game:
- The last player remaining with Public Health Funds and the most developed public health infrastructure wins the game.

Special Rules

- Passing "GO": Collect \$200 each time you pass "GO."
- Free Public Health Resources: Official rules state nothing happens when landing here, but house rules often add a jackpot mechanic.
- Auctions: If a player declines to buy a resource, the fiscal officer holds an auction where all players can bid on the properties.

Enjoy the game and learn more about the dynamic field of public health!
