

About University of Kentucky and Building Public Health Champions

The University of Kentucky is a public, land grant university dedicated to improving people's lives through excellence in education, research and creative work, service and health care. As Kentucky's flagship institution, the university plays a critical leadership role by promoting diversity, inclusion, economic development, and human well-being.

The University of Kentucky College of Public Health, established in 2004 and accredited in 2005, is dedicated to developing transformative solutions to health challenges through teaching, research, and service efforts that enhance the health status and quality of life for individuals, families, and communities. In 2022, the college was ranked 27th among Public Health Graduate Programs across the nation by U.S. News and World Report. The academic departments represented in the College include the Departments of Biostatistics; Epidemiology & Environmental Health; Health, Behavior & Society; and Health Management and Policy, all of which play a vital role in UK's commitment to addressing public health through workforce development, collaborative research, educational programming, and using data for public health action.
