2019 Annual Administrative Claims Data Report – Inpatient Hospitalizations

INTRODUCTION

Thank you for your interest in the **2019 Annual Administrative Claims Data Report – Inpatient Hospitalizations**. This report covers the inpatient hospital discharges from licensed Kentucky hospitals for the calendar year January 1 through December 31, 2019. The inpatient hospitalization records data submitted by hospitals as required by 900 KAR 7:030 – Data Reporting by Health Care Providers, was used to produce the utilization information in this report.

Beginning with the 2019 Kentucky Annual Administrative Claims Data Reports, the Division of Analytics began using CCS diagnoses classifications for Section IV instead of individual diagnoses codes. The Clinical Classifications Software (CCS) for ICD-10-CM and PCS is based on the *International Classification of Diseases, 10th Revision (ICD-10)*, a uniform and standardized coding system. The ICD-10-CM/PCS's multitude of codes—over 70,000 diagnosis codes and 70,000 procedure codes—are collapsed into a smaller number of clinically meaningful categories that are sometimes more useful for presenting descriptive statistics than are individual ICD-10-CM/PCS codes. It can be a useful way to categorize conditions when exploring data and can serve as a tool for reporting statistical information on hospitalizations.

The report is divided into six sections:

- ◆ **Section I – Maps of the Locations of Hospitals in Kentucky**
- ◆ **Section II – Five Year Trending Charts (2015 – 2019)**
- ◆ **Section III – Inpatient Hospitalization Days by Facility and Payor**
- ◆ **Section IV – Inpatient Hospitalizations - Leading 25 MS-DRGs**
- ◆ **Section V – Inpatient Hospitalizations - Leading 25 CCS Diagnoses**
- ◆ **Section VI – Inpatient Hospitalizations – Summary of Categories by Quarter and Hospital ADD**

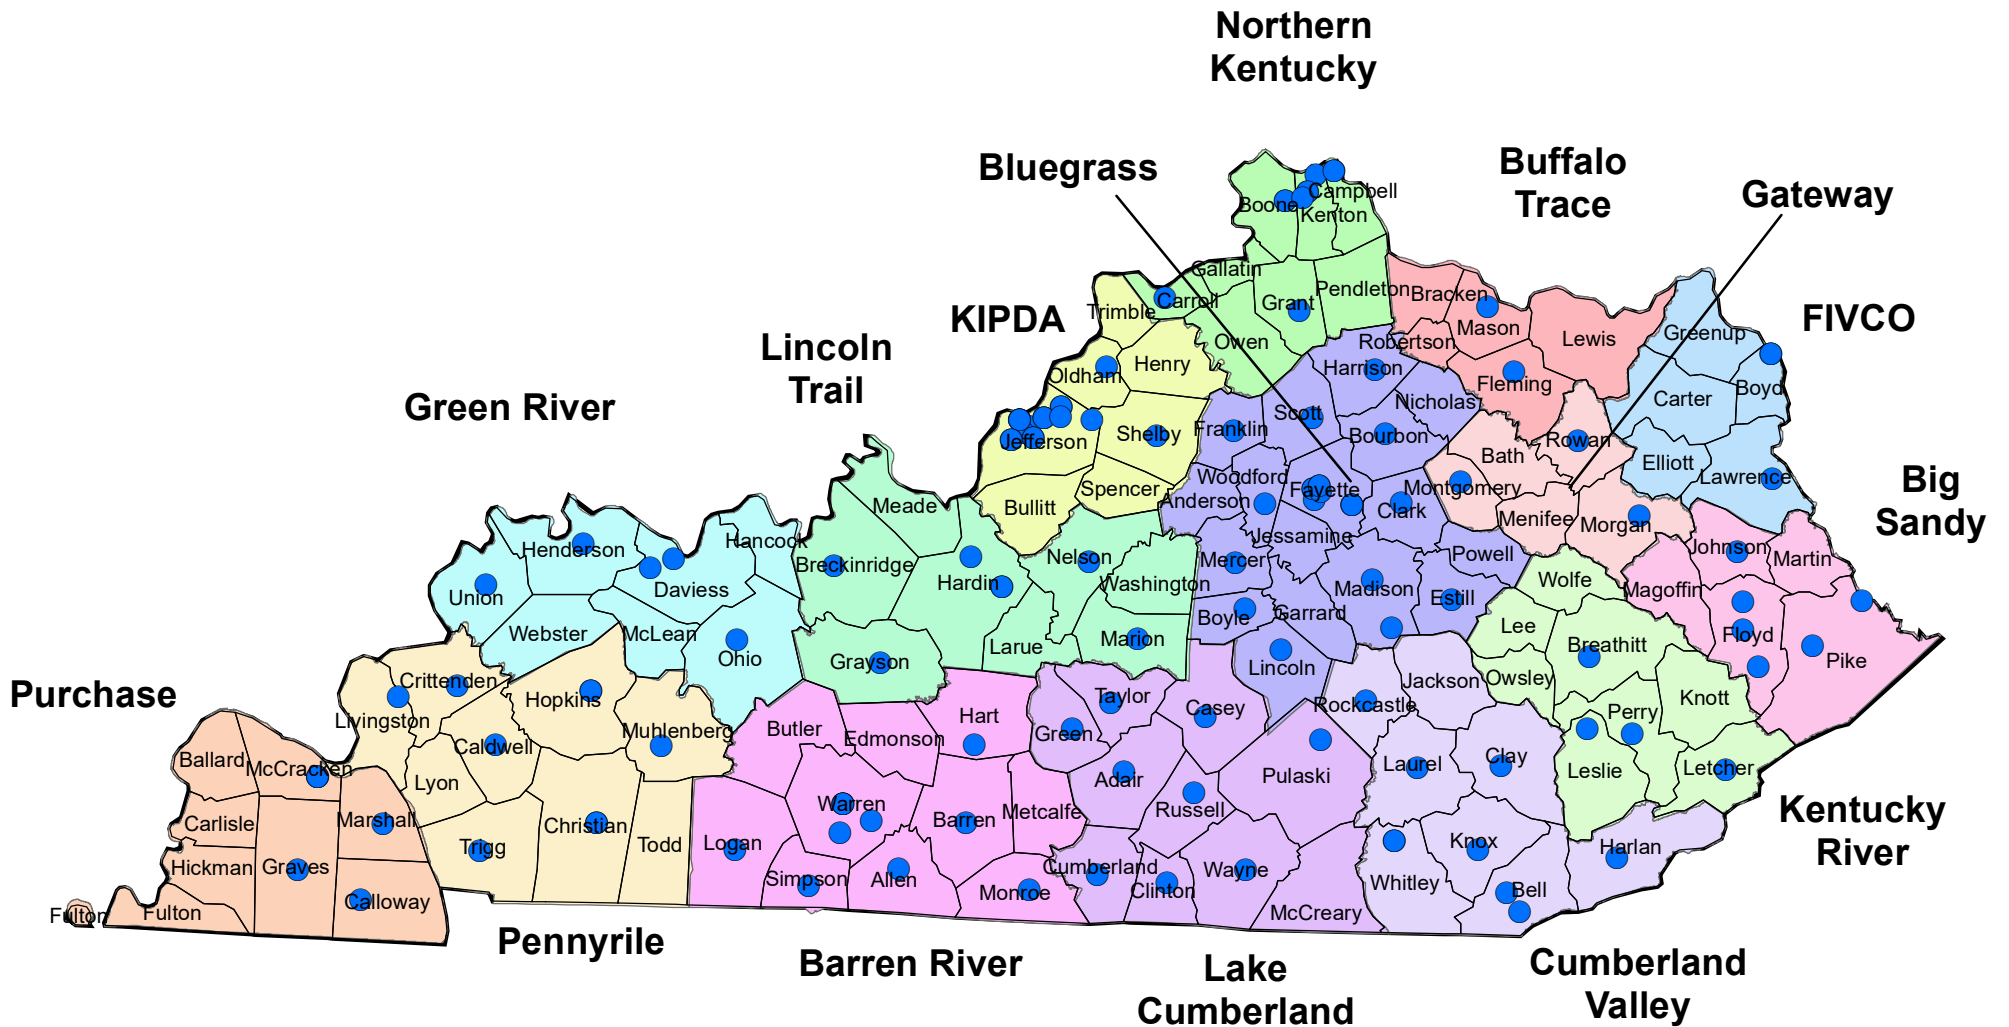

Questions or comments regarding the data contained in this report should be directed to Allison Lile at (502) 564-7940, ext. 3155, or e-mail: Allison.Lile@ky.gov.

This report is the most recent official data on inpatient hospital services utilization published by the Cabinet for Health and Family Services.
