2020 KENTUCKY ANNUAL HOME HEALTH SERVICES REPORT

INTRODUCTION

The Cabinet for Health and Family Services, Office of Inspector General, Division of Certificate of Need, announces the release of the 2020 Kentucky Annual Home Health Services Report. This office is responsible for utilization data collection and reporting required by 900 KAR 6:125. This report shows all census data, age distribution together with total patients served, and patients served by discipline and number of visits. This report is organized by county within Area Development Districts (ADD). A map of the ADDs is included at the end of this section.

This report covers the services provided from January 1, 2020 to December 31, 2020. There were **108** licensed Home Health Agencies in operation in Kentucky in 2020. This report covers 100% of all licensed home health agencies. Traditional Home Health Census Data shows a beginning census of **32,589** and Admissions of **112,274**. That is **118,942** Traditional Home Health patients served in 2020.

Definitions

Traditional Home Health – Intermittent skilled nursing services and other services for restoring, maintaining and promoting health or rehabilitation to patients in their place of residence.

Traditional Home Health Private Duty Nursing – Private Duty Nursing services provided in increments of at least four (4) hours for Traditional Home Health patients.

EPSDT (Early and Periodic Screening, Diagnosis and Treatment) - A federally mandated benefit which provides comprehensive and preventive health care services for children under 21 who are enrolled in Medicaid. In Kentucky, it is divided into two components: Screening and Special Services. Children are screened for medical problems at early stages. A Medicaid eligible child may receive EPSDT Special Services if the services are medically necessary and provided by a Medicaid provider.

EPSDT Private Duty Nursing – Private Duty Nursing services provided in increments of at least four (4) hours for EPSDT patients.

Model Waiver II – Community-based, in-home waiver services for an individual who is dependent on a ventilator 12 hours or greater per day, meets High Intensity nursing care services 24 hours per day and would otherwise require nursing facility level of care in a hospital-based nursing facility as defined by 907 KAR 1:022.

Data in this report are organized in three sections. Section I shows beginning census, admissions, discharges and ending census by agency and county of service. Section II shows total patients served by age category, agency and county of service. Section III shows the number of patients served and number of visits for various disciplines (skilled nursing, home health aide, physical therapy, occupational therapy, and speech therapy) for each agency during 2019. The agencies are grouped first by ADD then by county served. **ADD Totals** appear throughout the report following all county data for each ADD. **Statewide Totals** appear at the end of each section.

Additionally, the Section IV Notes Section contains information and changes regarding individual agencies during the year.

The Office of Inspector General, Division of Certificate of Need, produces a number of utilization and services reports. In addition to the Megavoltage Services Report, the following reports are available: Positron Emission Tomography (PET); Ambulatory Surgical Services; Chemical Dependency; Long-Term Care; Home Health Services; Hospice; Magnetic Resonance Imaging (MRI) Services; Private Duty Nursing; Annual Hospital Utilization and Services; Psychiatric Residential Treatment Facility. 		Traditional HHA	The beginning census for 2020 will not match the ending census for 2019. This is due to the timeframe of the current calendar year data being pulled early while the data is still being updated and reviewed for billing purposes. Discharge / admission records, for example, can have either the discharge or admission date corrected to the date of the last visit for billing purposes for the previous calendar year being processed. As a result, this leads to changes in the admission / discharge records for the current reporting year.
